# Yearbook of international Organizations

1968-1969

12th edition

## DESCRIPTION

The Yearbook of International Organizations provides information on all international organizations of :

**every category including :**

300 official organizations (established by agreement between governments)  
2,700 non-governmental organizations (councils, federations, groups, commissions, standing conferences, associations, organizations, alliances, etc)

The 3,000 organizations listed in 1,200 pages cover :

**every field of activity including :**

science, commerce, social welfare, education, technology, bibliography, press, international relations, politics, economics, finance, trade unions, professional associations, transport, sport, humanities, health, etc.

Definitions are as broad as possible, so that

international includes :

all geographical and political regional groupings of African, Asian, American, Caribbean, Pacific, Scandinavian, European (and other) organizations.

## SECTIONS USED

The 28,000 entries are arranged in 6 sections :

- I — Classified list of organizations (with a perpetual numbering system to facilitate comparison of organizations between editions). This gives details of the members of organizations. There are 26 main groups of organizations.
- II — **Geographical index of organizations listing addresses of organizations by continent, country and town.**
- III — French keyword and title index to assist French language readers and to facilitate location of international organizations with French language titles.
- IV — Dictionary of international organizations which is the main part of the Yearbook. It contains the descriptive entries on each organization, cross-references (keywords, initials, officers), and abbreviations.

NEW SECTIONS introduced for the first time are :

- V — Preliminary list of multinational business corporations. This is the first published list of a controversial new category of international organizations (600 business enterprises are included). There has been much discussion about these organizations since the last edition of the Yearbook.
- VI — **List of institutes, schools and study centres of international relations**  
105 bodies concerned with the study of international relations are listed.  
No other such list is currently available.

#### Mon opinion

« L'une des raisons pour lesquelles les conférences internationales sont fascinantes est qu'elles se déroulent rarement comme le prévoient les experts. Certains sujets auxquels on ne s'attendait pas donnent tout à coup lieu à un débat animé ou, mieux encore, des idées neuves et naissantes se font jour. »

Ainsi s'exprimait H.J. Bradley, Président de la Fédération internationale des Journalistes, en évoquant le neuvième et prochain congrès mondial de la F.I.J., à Dublin, en insistant aussi, il convient de l'ajouter, sur l'importance de certains sujets mis à l'ordre du jour : concentration de la presse, liberté de la presse, formation des journalistes, bien-être matériel des journalistes.

#### *Symposia's Poem*

At the end of an analysis on the Proceedings of the 3rd International Pharmacological Meeting, H.O.J. Collier wrote in the *New Scientist* (13 June 1968) a verse that started in his head after a scientific conference among the New Hampshire lakes in summer time.

Symposia, symposia, symposia—  
To some they're the purest ambrosia;  
Some argue their best,  
Some rest and some jest,  
And some become dossier and dossier.

Symposia, symposia, symposia—  
Conference prospects grow rosier;  
We assemble and prate,  
And learn from debate  
That mankind gets nosier and nosier.

#### For Men Only

Under this title, Zonta International (International Organization of Executive Women) wrote in the leaflet announcing its 1968 Convention, July 7-11, 1968, in Minneapolis, Minnesota :

Men like Minneapolis !

The invasion of Zontians from all over the world at the time of the International Convention in July will provide even more attractions for the man in the mood for recreation and relaxation.

The Zonta International Convention planners are making all arrangements for the men in the lives of Zontians who are Convention bound. The lakes are the big thing for boating, fishing, and, for those so conditioned, water skiing. Lush links of several courses invite the golfer to tee up in good company. Friendly competitions and appropriate awards (for the biggest fish, the lowest, notarized golf score, etc.) ought to make the whole thing more interesting.

Minneapolis-St. Paul is the home of the Minnesota Twins, the pennant-winning American League baseball team. Their home park is one of the most modern in the United States and a great place for enjoying the best in baseball.

Industrial tours of many midwest manufacturing plants and the vital Mississippi River commerce can be arranged. The Information Desk will handle all these special events for men at the Convention.

As their registrations are received, the men will be mailed activities preference forms.

### *Bill of welcome*

It costs money to have company, says *The Farm Journal (USA)*. When you expect 5,000 guests, you need a sizeable bank account. US farm women are discovering this as they plan to welcome the Associated Country Women of the World on the Michigan State University campus, September 3 to 14. It will take \$ 130,000 of which \$ 80,000 will be paid by persons registering. American farm women's organisations are raising the rest.

### **I.A.P.C.O.**

Le 5 janvier 1968 a été fondée à Bruxelles l'Association Internationale des Organiseurs Professionnels de Congrès (International Association of Professional Congress Organizers).

C'est sous les auspices de l'Union des Associations Internationales que cette initiative se situe.

Cette nouvelle Association a pour but principal de créer et de maintenir un haut niveau dans l'organisation des réunions internationales, ainsi que développer l'étude des problèmes s'y rapportant.

Cette Association devait être créée car à l'heure où les congrès et autres réunions internationales vont se multipliant, il est indispensable de voir se grouper les professionnels sérieux, spécialistes de ce genre d'organisation.

L'Association est composée de dix catégories de membres effectifs et affiliés, afin de grouper et les organisateurs professionnels s'occupant exclusivement de l'organisation de congrès, et les représentants de « département congrès » dépendant de services officiels ou privés.

Le bureau de l'Association Internationale des Organiseurs Professionnels de Congrès est présidé par Madame Fay Pannell (Grande-Bretagne), les deux Vice-Présidents sont MM. Friis (Danemark) et A. Cronheim (Pays-Bas). Le secrétaire général est M. Jean Destrée (Belgique).

Le secrétariat est installé : 1, rue aux Laines à Bruxelles I.

### *Les villes de congrès*

En 1903, s'est tenue à Berlin la 1<sup>re</sup> Conférence Internationale de Télégraphie sans fil et dans la même ville en 1967 le 1<sup>er</sup> Festival International de Télévision de la Prévention Routière Internationale. Le fait est souligné, dans une élégante mise en page, dans un numéro de la revue *Prévention Routière*, de Paris. Les villes de congrès, dans leur propagande écrite ou dans les discours des autorités municipales prononcés lors des congrès, pourraient utilement s'en inspirer et rappeler des dates et des faits tirés des listes chronologiques de toutes les réunions internationales tenues de 1681 à 1919, ou de toutes les organisations internationales fondées depuis 1815, publiées par l'Union des Associations Internationales, dans sa collection des « Documents pour servir à l'étude des relations internationales non gouvernementales ».

Beaucoup de lecteurs ou d'auditeurs aiment goûter le plaisir subtil des réminiscences historiques, assaisonnées de géographie, de technique et de prospective. Mieux encore dans l'euphorie d'un cocktail ou d'un banquet.

### **Evaluation et Rationalisation**

Le 10<sup>e</sup> Congrès de la Route Panaméricaine qui s'est réuni du 4 au 13 décembre 1967 à Montevideo, Uruguay, a approuvé la formation d'un *Comité Ad Hoc* afin de rationaliser les travaux du Congrès.

Le Comité, composé de 5 membres devait soumettre un rapport au Comité Exécutif Permanent pour le 1<sup>er</sup> juillet 1968 au plus tard. Celui-ci, pour sa part, prendra en considération les modifications éventuelles à apporter au fonctionnement et à l'organisation des Congrès pour obtenir une plus grande efficacité.

181 délégués en provenance de 17 pays et 46 observateurs ont participé aux séances du 10<sup>e</sup> Congrès de la Route Panaméricaine, réuni pour donner un nouvel essor au réseau des routes reliant les Etats des Amériques.

### *Institutions et réunions*

Jusqu'à présent, on a peu ou mal compris les liens très étroits qui existent entre les deux problèmes de l'établissement du siège des

réunions internationales et de l'établissement du siège des organisations internationales (très rentable en lui-même déjà pour le pays ou la ville-hôte).

La Suisse l'a certes compris, depuis longtemps et en a donné encore des preuves récentes.

Par arrêté fédéral en date du 19 décembre 1967, l'Assemblée fédérale de la Confédération Suisse a autorisé le Conseil fédéral à accorder à la F.I.P.O.I. (Fondation des immeubles pour les organisations internationales à Genève) un prêt d'un montant maximum de 20 millions de francs suisses destiné à l'agrandissement du bâtiment du siège de F.T.J.I.T. Cet agrandissement est en cours d'étude par le Conseil d'administration suivant la Résolution n° 39 de la Conférence de plénipotentiaires de Montreux, 1965. Le 22 décembre 1967, au cours d'une brève cérémonie qui s'est déroulée dans la salle des séances du Conseil d'Etat du Canton de Genève, un contrat a été signé entre les autorités cantonales genevoises et le secrétaire général de l'Union, M. M. Mili, pour l'achat, par l'U.I.T., du bâtiment du siège de l'Union, inauguré en 1962. La signature de ce contrat fait suite à la Résolution n° 38, adoptée à Montreux (1965) par la Conférence de plénipotentiaires.

Pour l'aménagement du Palais des Nations à Genève (y compris la construction de dix nouvelles salles de conférence), le gouvernement et le canton de Vaud ont fait un don symbolique de 4 millions de francs suisses et le gouvernement suisse a accordé un prêt de 61 millions de francs suisses, avec un taux d'intérêt de 3 pour cent et remboursable en dix ans.

#### *Réunion Internationale convoquée par un Centre National*

La Caisse Nationale de retraite des ouvriers du bâtiment et des travaux publics, de France, organise à Paris les 13 et 14 décembre 1968, des journées d'études internationales sur le problème des personnes âgées, en collaboration avec le Centre de Gérontologie sociale.

#### Convention Figures

For those cities which vie for conventions, the latest news is good : delegates are spending more and staying longer.

The International Association of Convention Bureaux, in its first study of convention delegate spending habits since 1957, reports :

About 10 million persons attend 22,000 conventions each year and spend \$ 1,300 million in host city hotels, restaurants, theatres, retail stores, and on local transport.

The average convention delegate spends \$ 34.27 a day and stays in town for an average of 3.93 days, so that the city's economy gains to the extent of \$ 134.68. This is a 14 per cent increase on the figure of ten years ago, when the average delegate spent \$ 30.80 daily and remained 3.84 days.

International and national convention delegates spent an average of \$ 35.07 daily last year compared with \$31.87 in 1957.

These survey figures do not include travelling expenses to and from the convention city or exhibitor spending on displays, personnel, and customer entertainment.

#### *New York*

New York, which specializes in imports, had a bumper crop of one prize commodity — hard cash — last year. The New York Convention and Visitors Bureau revealed that during 1967 some 16 % million visitors journeyed here and spent \$ 1.45 million dollars in the city.

The report emphasized the burgeoning importance of the tourist industry — which now employs more than 300,000 persons here — to the city's economy.

In detailing the visitor figures, Charles Gillett, executive vice-president of the Bureau, noted that 814 conventions were held in New York during 1967. This figure — up from 801 in 1966 — is a record for a non-World's Fair year. The 814 meetings were attended by 2,755,705 delegates who spent \$ 267,716,600

*Opening session of Congress 68 of the international Federation for Information Processing (IFIP) at the Usher Hall, Edinburgh.*

in the city. In April, Mr. Gillett led a group of American convention bureau executives to Europe on a sales drive designed to attract more European-based conventions to their shores.

The 1967 annual report stresses that " a much larger convention-exposition hall is a critical need in New York. Our salesmen cannot even bid for some of the largest and most lucrative meetings because such meetings cannot be accommodated by the present facilities. Independent market surveys indicate there is a potential of \$ 100 million in new convention-exposition business for New York if we had 'a convention hall at least double our present available exhibit space.

" Disregarding new business, the need for a larger hall is still critical. Each year more and more meetings are outgrowing the present facilities.

"Inevitably they will be forced to desert New York — enticed by the modern exposition halls built by other convention-hungry cities.

*Anthony Wedgwood Benn, Minister of Technology (right) talking to Professor Stanley Gill, (left) U. K. General Assembly member at the reception before the IFIP Congress Dinner.*

" Feasibility studies for major convention facility in New York are now near completion. These studies are a joint venture by the Bureau, city government and the Economic Development Council of New York. Constructive action, taken quickly on the basis of these studies can make New York preeminent in the convention industry with all the attendant benefits of increased business, more jobs, higher tax revenues that this implies."

#### Montreal Competes for Convention Dollars

The International Hotel Review gave the following information on the subject.

" To date, Montreal has received 228 firm bookings for conventions in the next seven years, and 118 of these will be held in the next twelve months ", Garner Havers, General Manager of the Sheraton-Mount Royal and Chairman of the City's Convention Committee, recently told the annual meeting of the Montreal Convention and Visitors Bureau.

Total number of visitors the 228 meetings will bring to the city's hotels is expected to be 183,750. In 1967, conventions contributed over \$ 31 million to Montreal's economy, compared with \$ 23 million in 1966.

Nelson Vermette, a Director of the Bureau, Manager of the Queen Elizabeth Hotel and Vice-Président of Hilton Canada, said that each delegate to a Montreal gathering spends \$ 155.85 — during a 4 %-day stay — 15 per cent more than the North American average.

A recent survey showed that convention delegates on this continent spend \$ 134.68 — on average during a 3.98 day stay.

Frank Bloodsworth, General Manager of the Montreal Convention and Visitors Bureau, said that last year's Expo '67 pushed Montreal into the global market for international congresses. As a result, the city would have three sources for its conventions : Canadian groups, a greatly increased number of US organizations and a regular flow of world business.

#### *Risque de télescopage congressuel à Bruxelles en mai 1970*

Beaucoup de bonnes choses ont déjà été écrites sur la coordination du travail international et l'emploi de la documentation existante (documentation en matière de congrès bien connue de nos lecteurs).

Cependant, venus de deux initiatives fort éloignées géographiquement et disciplinairement, deux grands congrès internationaux étaient en train de planter leurs racines à Bruxelles pour y fleurir aux mêmes dates, en mai 1970, dans l'inconscience totale de la présence de l'autre et l'impossibilité de disposer dans ce cas du nombre voulu de chambres d'hôtels. Quand heureusement...

#### Consommateur

L'Organisation internationale des Unions de Consommateurs se préoccupe de ses propres consommateurs, lorsqu'elle organise ses réunions. En effet dans le numéro 6 - 1967 de sa revue *International Consumer*, M. Walker Sandbach, en souhaitant la bienvenue aux Etats-Unis aux délégués de la 5<sup>e</sup> Conférence de l'Organisation, organisée du 26 juin au 1<sup>er</sup> juillet 1968 au Collège Sarah Lawrence, Bronxville (New York), souligne quelques dispositifs et facilités de l'utilisation de ce collège féminin très réputé. Il ajoute : « En outre, le fait que « Sarah Lawrence » est un établissement sans but lucratif nous permet de fixer un tarif, pour les chambres et les repas, inférieur de plus de la moitié, à celui des hôtels de New York — élément important à notre époque où les échanges monétaires posent tant de problèmes ».

#### *fédération Européenne des Villes de Congrès*

Une intéressante communication sur les objectifs et les activités de cette Fédération a été présentée par son Président, M. Jaussi, Directeur de l'Office du Tourisme de la Ville de Montreux, lors du Séminaire européen pour le Tourisme, à Badgastein, le 21 mars 1968.

La prochaine Assemblée Générale de la Fédération se tiendra à La Haye dans le Palais néerlandais des Congrès, les 28 et 29 novembre 1968.

#### **A.I.P.C.**

La chaîne des palais qualifiés pour votre congrès. Sous ce titre, l'Association Internationale des Palais des Congrès, fondée à Liège en 1958, a sorti une solide brochure d'une trentaine de pages qui décrit les 25 palais membres de l'A.I.P.C., dont 23 en Europe, un en Amérique du Nord et un au Proche-Orient.

Cette brochure, très bien faite, qui contient une fiche de demande de documentation plus détaillée sur ces palais, peut être obtenue en s'adressant à : A.I.P.C., Palais de Beaulieu, Lausanne 1002, Suisse (Tél. 21.31.11).

#### *Dans les tempêtes*

De nombreux congrès et réunions furent supprimés en France lors des troubles de cet été. Parmi ceux qui furent maintenus, citons le XXIV<sup>e</sup> Congrès international des Capitaines au Long-Cours, tenu à Juan-les-Pins les 30, 31 mai et 1<sup>er</sup> juin. Le nombre des participants aurait dû être de quelque 400. Il s'éleva cependant à 171 Cap Horniers et sympathisants, se décomposant comme suit : 126 Allemands, 18 Suédois, 13 Français, 4 Belges, 3 Danois, 2 Anglais, 2 Hollandais, 1 Finlandais, 1 Norvégien, plus une sympathisante d'Australie. Parmi la délégation allemande, on comptait 76 Cap Horniers, dont 3 Albatros.

Certains délégués allemands, ayant fait le trajet en train, arrivèrent avec dix heures de retard sur l'horaire prévu. Plusieurs délégations voyagèrent en car; des délégués ont pu choisir l'avion comme moyen de transport. On ne paraît pas avoir utilisé le bateau.

#### **Enseignement touristique**

La 20<sup>e</sup> Assemblée générale de l'Union Internationale des Organismes Officiels de Tourisme a accepté l'offre du Liban de créer à Beyrouth le premier Centre International

de l'Enseignement touristique. Le Liban avait mis à la disposition de l'U.I.O.O.T. des terrains et des bâtiments situés à Dékouané.

#### *Poitiers (Poitou-Charente)*

La publication française « Technique et Tourisme » a signalé que pour financer la construction d'un nouveau parc des congrès et expositions, projet lié directement à l'expansion de la ville et de la région, la municipalité de Poitiers lance auprès de ses administrés un emprunt amortissable en dix ans sur la base d'une annuité constante et porteur d'un intérêt de 6,25 %.

Le parc des congrès et expositions s'insérera dans un vaste ensemble comprenant notamment une zone à urbaniser en priorité, le campus universitaire et diverses implantations administratives.

#### **London Conference Centre**

In 1971, Covent Garden market is being moved to Vauxhall, and the Greater London Council, in partnership with the Westminster and Camden local authorities, has just completed a preliminary survey on how this patch of a site should be developed. It's a near certainty that a conference centre will be included in the plans.

#### *Age of Delegates*

Almost one-fifth of the approximately 250 voting delegates to the 1970 Fifth Assembly of the Lutheran World Federation will be young people between the ages of 18 and 25 years. The decision was made by the Executive Committee of the L.W.F.

Recognizing the dilemma of " youth participants " at the W.C.C. Assembly in Uppsala who could speak but not vote, the L.W.F. enlarged the number of delegates from its 75 member churches and specified that 42 of them must be young people. They will be " integrated with the other delegates of their churches " in the Assembly's plenary sessions.

Prior to the LWF's Porto Alegre Assembly a youth conference will be held to brief the young people on issues to come up for discussion. Participants will travel through Latin America for one month prior to the meeting as part of a world-wide study now under way among youth and student groups on the problem of hunger in all its aspects. Then youth will share their experiences and draft a report to the Assembly.

Of the 42 voting youth delegates, 15 will come from Europe, nine from Asia, seven from Africa, six from Latin America and five from North America. In addition, nine Latin American young people will have "official visitor" status and four "adviser" positions have been allotted to North American youth.

#### *Cheap Congress-Cruise*

The 1968 Congress of the World Federation of Liberal and Radical Youth took place on board the Finnish boat "Finnhansa",

starting 09.00 hrs. on 16th September and ending 21.30 hrs. on 19th September. The boat left from Lübeck (Germany) and called at Karlskrona (Sweden) and Helsinki (Finland), before finally returning to Lübeck.

All travel costs and board and lodgings for registered delegates were paid for by WFLRY. There was a participation fee of 250 Swedish Crowns, (about = £ 20 = U.S. \$ 50 = 250 F.F. = 2.500 Italian lire = 200 Finnish Marks = 350 Danish and Norwegian Crowns = 190 DM = 175 Dutch Florins).

Any organisation could send any number of participants to the Congress in addition to their delegation but they had to pay their own travel costs to and from Lübeck and also had to pay a participation fee of approximately 200 Swedish Crowns.

#### *Booking in advance*

The June 1968 issue of World Highways, the magazine of the International Road Fe-

*At the Moscow Congress (August 1968) the members of the Permanent Committee of the International Congresses of Entomology on the steps of the USSR Academy of Sciences, Dr S. L. Tuxen president of the Committee is in the front row second from the left and Dr Paul Freeman, Secretary, in the back row second from the right. Next to Dr Tuxen is the Congress President Professor Bey-Bienko. On Dr Freeman's right is the Congress Secretary, Professor Ghilarov.*

deration, announces that a total of 2,650 rooms has been reserved for the I.R.F. Sixth World Meeting, to be held in Montreal from October 4 to 10, 1970.

#### *Participation à une réunion nationale*

Un communiqué relatif à la 55<sup>e</sup> session des Semaines Sociales de France, tenues à Orléans du 4 au 14 juillet 1968 contient diverses statistiques concernant les participants, obtenues par un sondage effectué lors d'une des séances. Elles révèlent entr'autres que sur 1.440 participants, 93,7 % étaient de nationalité française et 6,3 % d'autres nationalités; que 15,6 % étaient âgés de moins de 25 ans, 36,9 % de 25 à 40 ans, 38,5 % de 40 à 60 ans et 9,0 % de plus de 60 ans.

#### *Declaration of Quito*

The successful deliberations of the 11th Congress of the Confederation of Tourist Organizations of Latin America held in Quito, Ecuador, (March 31 to April 4, 1968) have found expression in the " Declaration of Quito ", signed in the closing session by representatives of the National Associations of Latin American countries, members of COTAL, representatives of official tourist bodies of that area and the honour witnesses, Messrs. Giuliani Magnoni and A. Wilson, of the Universal Federation of Travel Agency Associations (FUAAV) ; Gunnar von Haartmann, President of the World Association of Travel Agencies (WATA) ; Francisco Hernandez, permanent secretary of the Inter-american Tourist Congresses of OEA, and Luis Zalamea, Executive Director of the South American Travel Organization (SATO).

This was attended by approximately 800 persons, representing 16 Latin American countries and 16 States outside of that area (USA and Canada, Europe, the Near East, Africa and Australia).

The " Declaration of Quito " is the private industry and governments' pledge to accomplish concrete results in the course of the current year in order to accelerate the development of tourism in Latin America, which was the main theme of the Congress.

#### *Belgian Congress Association*

On 9 February at the Anglo-Belgian Club in London, the Belgian Congress Association organized an informative meeting intended for conference organizers and the specialist press.

Mr Lageirse, President of the Association, made a short speech on this occasion in which he quoted statistics of the Union of International Associations and the reports presented at the UAI's 4th International Congress on Congress Organization, which took place at Copenhagen in 1966.

The Belgian Congress Association now counts eight conference centres among its members : Antwerp, Brussels, Charleroi, Knokke, Kortrijk, Liège, Namur and Ostend. Documentation produced by the Association since 1961 includes a technical brochure, an informative booklet and leaflet and a film showing technical installations at seven of its centres.

During the last few years Belgium has been , among the first to encourage the foundation of the European Federation of Congress Towns, which now comprises 33 member-towns.

#### *Up and coming Lebanon*

Lebanon is becoming more popular as a meeting place. Beirut already offers quite a few facilities. For instance :

*Theatre du Liban* : on the grounds of the Casino du Liban, 25 kms. from Beirut. Good acoustics, seats 2,300.

*Phoenicia Hotel Ballroom* : seats 500 to 700. Simultaneous translation system available on request.

*Al Bustan Hotel* : its auditorium seats 450 and is equipped for simultaneous translation in three languages. Smaller halls and committee meeting rooms are also available on the premises.

*The Y.J.F.C.A.* : seats 500; acoustics and public address system; also has a number of smaller halls and committee rooms.

*The Bristol Hotel* : has one hall which seats 100.

*The French Faculty of Medicine* : has an amphitheater which can accommodate 200 to 300 delegates.

*The American University of Beirut* : has two auditoriums : the Assembly Hall which seats 500, and West Hall which seats about 300.

*Unesco Hall* : main conference hall is equipped for simultaneous translation in three languages and seats 1,000 to 1,200. Smaller halls and committee meeting rooms are also available on the premises.

*La Cité Sportive* : open-air stadium, the largest meeting place that Lebanon offers. It accommodates up to 15,000 persons.

#### *Universities and Peace*

The Secretary General of the Union of International Associations has been invited to the Fifth Meeting of the International Standing Committee in charge of the preparation of the large World Conference on "The Role of the University in the Quest of Peace", to be held in Rome from January 13 to 17, 1969.

On the same subject, an American Conference has been organized at the National University of San Marcos, Lima, Peru (Nov. 9-13, 1964), an Africa and Middle East Conference at the University of Ibadan, Nigeria (December 27-31, 1964) and an American-Canadian Conference at the State University of New York (June 21-23, 1967).

The programme of the Conference will consist of : a) Plenary Sessions devoted to general exposition and review of problems of interest to the Conference, and b) four Commissions which will deal more intensively with certain specific points of the agenda of the Plenary Sessions. The final Plenary meetings on January 17 will be devoted to the elaboration of conclusions and recommendations to be adopted by the Conference as a whole.

Invitations to the Rome World Conference are extended to the following three categories: a) universities and university rank institutions, b) international organizations, governmental and non-governmental, including international student bodies and c) specialists on the various subjects of discussion.

#### Extrait d'un discours

Dans le discours qu'il a prononcé à Monaco, le 24 juin, à l'ouverture de la 5<sup>e</sup> Conférence régionale des Commissions nationales européennes de l'Unesco, le Directeur général de l'Organisation, M. René Maheu, a déclaré :

« En cette année 1968, l'Unesco doit aller vers la jeunesse comme, il y a dix ans, elle est allée vers le Tiers-Monde : avec la même ouverture de cœur et d'esprit. Je n'entends pas par là un simple renforcement de telles ou telles activités inscrites à son programme qui intéressent directement la jeunesse. Ce que j'ai à la pensée, c'est une véritable conversion affectant l'ensemble des démarches et des travaux, des orientations et des méthodes de l'Organisation... L'Unesco doit devenir l'Organisation des jeunes : l'Organisation où les jeunes doivent pouvoir librement poser leurs questions — toutes leurs questions — à l'échelle du monde, donner forme à leurs rêves en s'essayant à la coopération humaine, apporter à une œuvre de paix désintéressée toutes leurs ferveurs et le jaillissement inépuisable de leurs dons et de leurs inventions ».

#### *Budget des Congrès*

Etant donné le fait que le 5<sup>e</sup> Congrès international sur l'organisation des congrès (6-9 mai 1970) sera consacré à l'étude des ressources et des dépenses des congrès internationaux, nous donnerons, jusqu'à la date du congrès, dans chaque chronique Congressalia, une suggestion pour mieux boucler le budget de votre congrès.

Suggestion n° 1 :

*On cherche siège de congrès.*

Pourquoi les organisations internationales qui ne se trouvent pas devant des impératifs catégoriques pour le choix du siège de leur prochain congrès, ne demanderaient-elles pas à recevoir « toutes propositions de municipalités ou de centres de congrès soulignant les économies et avantages offerts pour tenue, pendant ..... jours, d'une réunion de ..... personnes, aux environs de la date du ..... ».

L'U.A.I. est prête à ouvrir aux organisations internationales, dans sa revue mensuelle, une rubrique spéciale et régulière pour ses demandes de siège de congrès.

### Collaborateur demandé

En raison de l'accroissement de ses activités diverses relatives au domaine des congrès internationaux ainsi que des demandes et des contacts en augmentation continue dans ce secteur, l'U.A.I. souhaiterait trouver des concours dans d'autres pays. Il s'agit de collaborateurs extérieurs. Toute proposition sera examinée attentivement et rapidement.

### Post-Conference Trip

As the trip organized last year to Malmo (Sweden) and Copenhagen (Denmark) after the Fifth Technical Conference was such a success, the Secretariat of the International Federation of Newspaper Publishers felt this was sufficiently encouraging to plan a longer journey to follow this year's Conference. Florida (United States) was the destination to which a Pan-American Boeing

specially chartered by FIEJ flew 165 Conference participants including Mr. Claude Bellanger, President, and Mr. Michel L. de Saint Pierre, Director of FIEJ. Their trip lasted from November 17-21, during which time they visited the installations of the Miami Herald and West-Palm-Beach Post and Times.

It must be added that the Sixth FIEJ Technical Conference was held in Paris on November 15 and 16, 1967 and brought together 250 managers and technical managers of newspapers from 17 countries.

The Conference was marked by two innovations : firstly, it took place under the auspices of the INCA-FIEJ Research Institute. In this connection we should like to recall the Institute was jointly set up by INCA and FIEJ following the agreement which the two associations concluded in 1967. Secondly, machine manufactures were called in for the

*Ploughmen representing 10 countries participated in the 15th World Ploughing Contest held at Norton, Rhodesia, before a crowd of 35,000 spectators on 26th and 27th April, 1968. In conjunction with the Contest there was a symposium on the problems of*  
*\* Soil Tillage in the Tropics > in which leading soil scientists and implement development technicians from a number of countries took part.*  
*The illustration shows Adolf Preuss of West Germany ploughing stubble land.*

first time, and in the course of the first day of the Conference were invited to present reports on particular aspects of their production range, and also to take part in a round table discussion.

#### Scientific co-operation

The conference on the Conditions and Possibilities of Scientific Co-operation in Europe, organized by the World Federation of Scientific Workers, took place in Vienna from 16 to 19 April 1968. It was attended by nearly seventy scientists from eighteen European countries. Observers were present from eight international organizations, including Unesco, the International Atomic Energy Agency, the International Association of Universities, and CERN.

After a plenary session with four keynote speeches on general perspectives, the confe-

rence split into two sections for detailed discussion of scientific co-operation throughout Europe and the conditions necessary for it. Arising from the request of a number of participants, an additional session on the role of European scientific co-operation in relation to the developing countries was also arranged.

#### Analysis of Membership

The 11th Pacific Science Congress of the Pacific Science Association was held in Japan from August 22 to September 10, 1966.

Registration for the Congress, as of September 1, 1966, numbered 5,906, making this by far the largest of the Congresses. Of those registered, 2,166 were foreign scientists and 3,740 were Japanese scientists. Meetings required 30 halls in the University of Tokyo.

(See table below.)

Sector/^^^,	Registered (as of 1 September 1966)		
	Total	Foreign	Japanese
0 Pacific Science Council and others	54	24	30
I Meteorology	237	87	150
II Oceanography	440	210	230
III Geophysics	415	147	268
IV Geology and Soil Science	420	128	292
V Biology	557	260	297
VI Agriculture, Forestry, Animal Science, and Conservation	1,258	288	970
VII Fisheries, Marine and Freshwater Sciences	494	124	370
VIII Nutrition, Public Health and Medical Science	1,013	485	528
IX Social sciences	211	114	97
X Anthropology	309	163	146
XI Geography	402	91	311
XII Scientific Information and Museums	96	45	51
	5,906	2,166	3,740

Host institution was the Science Council of Japan. Meetings during the first two weeks were held at the University of Tokyo. In the third week special symposia and tours visited other parts of Japan. Weekend tours on 27 and 28 August, and scientific excursions during the meetings, gave scientists further opportunities to become acquainted with Japan. Public lectures, film shows, and exhibits supplemented the symposia and divisional meetings.

Receptions for delegates were given by the Emperor and Empress of Japan, the Prime Minister of Japan, the Governor of Tokyo, the President of the University of Tokyo, and the President of the Congress. In the second week there were Embassy and Consulate receptions for delegates. A varied programme was arranged for the wives of visiting scientists.

#### Evolution des participations

A sa réunion de septembre dernier à Ronneby, Suède, le mouvement Pugwash a célébré son dixième anniversaire. Ce mouvement de savants qui débuta en 1957 par une invitation du financier américain Cyrus Eaton conviant tous les savants de l'Est et de l'Ouest à venir discuter, chez lui, à Pugwash, Nova Scotia, de leur rôle dans le monde, définit ses lignes directrices lorsque 22 savants provenant de 14 pays publièrent une déclaration signée par 20 d'entre eux et mettant le monde en garde contre les dangers d'une guerre nucléaire. Depuis, de nombreux autres les ont rejoints. Ils se sont rencontrés dans 17 grandes conférences internationales, dans des conférences régionales et particulières encore plus nombreuses, et un grand nombre de groupements nationaux Pugwash se sont créés et demeurent très actifs.

Le Prof. J. Roblert, secrétaire général, dans une analyse des travaux du Comité de continuation depuis 1962, fournit quelques précisions intéressantes sur les participants des conférences.

« La principale activité a été d'organiser les conférences internationales. Six conférences de ce genre se sont déroulées depuis la réunion (à Ronneby — n.d.l.r.). Bien qu'il ait été dans nos intentions de choisir alterna-

tivement le lieu de ces conférences à l'Est et à l'Ouest, il s'est trouvé que dans ces cinq dernières années trois conférences se sont tenues en Europe orientale, une en Europe occidentale, une Afrique et une en Asie.

Parmi les participants à ces six conférences, il y eut 140 nouveaux membres du mouvement Pugwash. Il est intéressant de noter que parmi ces nouveaux venus peu étaient originaires des U.S.A., de l'U.R.S.S. et du Royaume-Uni qui fournissaient auparavant plus de la moitié des membres de notre mouvement; un sang nouveau nous est venu d'autres pays, en particulier d'Asie et d'Afrique (voir tableau ci-dessous).

	1957-1961 (10 confer.) %	1962-1967 (6 confer.) %
U.S.A.	28	10
U.R.S.S.	13	7
Royaume-Uni	13	1' - .
Europe	32	41
Amérique (sans les U.S.A.)	4	5
Asie	9	17
Afrique JHB		i3j^B

On peut constater une intéressante tendance si on groupe les participants suivant leur profession ou le domaine de leurs études... La proportion des sociologues s'accroît graduellement aux dépens de celle des physiciens. La proportion de biologistes, de philosophes et d'enseignants reste pratiquement inchangée et est très basse. Cet accroissement de la proportion des sociologues a été particulièrement élevé pour les nouveaux venus au moment... (voir tableau ci-dessous).

J^^BI	1957-1961 0/	1962-1967 %
Philosophie, enseignement, etc.	4	11
Sciences physiques	56	38
Sciences biologiques	22	16
Sciences sociales	18	35

### Women Executives

The 19th annual congress of the World Association of Women Executives, the organization of women who own or control their own businesses, was held in London from 12 to 15 May, 1968, at the Grosvenor House Hotel.

The British Branch, the British Association of Women Executives, whose President is Miss Nora Walley, the Chairman and Managing Director of the Walley Group of Companies, was host to the Congress. The only previous London meeting was in 1959. Delegates came from Argentina, Austria, Belgium, Canada, France, Germany, Holland, Italy, Mexico and Sweden, as well, of course, as from the UK. They control a variety of interests ranging from architects to actuaries, from Mulberry harbours to hats, and from hotels to handwriting.

The World Association, known as the « Femmes Chefs d'Entreprises », was founded in 1946 by M<sup>me</sup> Yvonne Edmont Foinant who is still the World President. Madame Foinant is the Managing Director of an important Iron Foundry producing tools for industry.

The London Group of the Femmes Chefs d'Entreprises was founded in 1954 by Mrs Hugh Orr-Ewing. Mrs Orr-Ewing is the Principal of an International Finishing School in Kent, and speaks several languages fluently, including Japanese.

The Congress was organized by Conference Services Limited, whose Managing Director, Mrs. Fay Pannell, is a member of the British Association of Women Executives.

1968 is not only the year in which Women Executives from all over the world are meeting in London, it is also the 50th Anniversary

The Cairn of Peace. On or near the site of each World Ploughing Contest, held in a different country each year, is erected a monument to commemorate this international event. Built into the cairn is a piece of stone brought from the homeland of each participating ploughman and inscribed with his country's name. These monuments established by < the worldwide ploughing brotherhood \* (in the words of the ploughmen's song) are a reminder of the fellowship of those who live and work on the land everywhere. A chain of Cairns of Peace is stretching around the world. The one illustrated is at Norton, near Salisbury in Rhodesia where the 15th World Ploughing Contest was held in April 1968. It is in the form of a plough mouldboard in concrete alongside and encircled by a reproduction of typical Zimbabwe architecture.

of the admission of women to Parliament in the UK.

#### Grands congrès religieux

Près de trois mille délégués de cent sept pays, soixante-cinq organisations internationales, ainsi que trois cents experts, et les observateurs de vingt et une communions chrétiennes ou organismes œcuméniques se sont réunis à Rome (Italie), du 11 au 18 octobre 1967, pour le III<sup>e</sup> Congrès mondial de l'Apostolat des Laïcs.

Les participants ont étudié le thème du peuple de Dieu dans l'itinéraire des hommes; l'homme d'aujourd'hui; et le thème des laïcs dans le renouveau de l'Eglise.

#### Rappelez -vos objectifs

L'Association internationale de la distribution et des produits alimentaires (AIDA) organise des congrès très importants auxquels sont jointes des expositions qui ne le sont pas moins.

Cependant, cette association estime nécessaire de rappeler les objectifs de ces manifestations. Ainsi, dans une évocation relative au 7<sup>e</sup> Congrès international de distribution des produits alimentaires, qui se tiendra à Madrid du 1 au 4 juillet 1969 et à l'Exposition internationale de l'alimentation, qui aura lieu du 28 juin au 13 juillet 1969 à Madrid, elle les précise comme suit.

Les congrès d'AIDA servent à examiner des problèmes de distribution actuels et en particulier les voies et moyens propres à améliorer la productivité des entreprises et organisations travaillant dans le domaine de la distribution des produits alimentaires. Dans le cadre de ces manifestations, les personnalités de premier plan et les techniciens de l'économie alimentaire du monde entier sont renseignées sur les progrès réalisés dans la technique de la distribution, sur les méthodes les plus récentes de la gestion commerciale, sur les possibilités de collaborer entre les différents échelons de cette branche de l'activité économique ainsi que sur le plan tant national qu'international, comme aussi sur les tendances de l'évolution dans un avenir rapproché et plus lointain; en outre, ils doivent avoir la possibilité de participer à un

échange d'idées et d'expériences intensif avec tous les milieux représentés au congrès, de la production jusqu'au consommateur en passant par le commerce. Les travaux du congrès ont pour but d'améliorer et de perfectionner continuellement les services au consommateur et, dès lors, d'élever le niveau de vie de la population.

L'exposition internationale de l'alimentation organisée en liaison avec les congrès a pour but d'appuyer les efforts faits par AIDA et les congrès en vue d'améliorer la productivité de la distribution des produits alimentaires ainsi que de promouvoir le progrès dans la fabrication et la distribution des marchandises au profit du consommateur et d'élever son niveau de vie. Elle veut montrer les résultats et les effets de ces efforts tant aux professionnels et spécialistes qu'à un large public et fournir aussi, de cette manière, une contribution active à l'intensification des échanges internationaux.

#### Satisfied delegates

Sir Douglas Logan, Principal, London University, writing in the Times Educational Supplement (15-3-1968), praised the efficiency of the organizing staff at the Fourth Commonwealth Education Conference in London last March in the following words :

The Conference ended last week-end with quite a *tour de force*. In spite of the fact that the reports of the main committees had been adopted by the conference only two days earlier each delegate at the final plenary sessions was presented with a printed copy of the whole conference proceedings.

This is typical of the efficiency which characterized the arrangements for the conference, and the Commonwealth secretariat, strengthened by temporary recruits drawn from many countries, deserves warm congratulations.

Its members, however, would be the first to acknowledge gratefully the help received from our Nigerian hosts at all levels, not forgetting the staff in the documentation centre who worked all day, and when necessary for most of the night, to enable delegates to start on their meetings next day with an accurate record of what had gone before...

The Council of the Esperanto-Asocio meeting at the annual congress, held this year in Madrid. Council members are elected in part by the 33 national and specialized organizations affiliated to the U.Ed., in part by some 1,400 local representatives of the Association, and in part are co-opted. The meeting registered a record attendance of 50 out of a possible 70 council members.

### Hydrological Session

The fourth session of the Co-ordinating Council of the International Hydrological Decade met at Unesco headquarters from 4 to 15 May. The meeting was attended by delegates from 20 countries, by observers from 15 other lands and representatives from seven international organizations, Mr. Ivan Chéret (France) was chairman, assisted by two vice-chairmen, Mr. Newton V. Cordeiro (Brazil) and Mr. S. Dumitrescu (Rumania).

Launched in 1965 and supported by Unesco, the International Hydrological Decade, in which 100 countries are taking part, aims at gathering, within ten years, the necessary scientific knowledge for rational management of the world's water resources.

### Heart to heart talks

A private meeting convened by the Council for International Organizations of Medical Sciences (CIOMS) took place at WHO Headquarters in Geneva on June 13 and 14 on the problems of heart transplantation.

About 15 participants from various countries attended; cardiologists, surgeons, immunologists and representatives of concerned CIOMS member organizations, of WHO and UNESCO.

This was a purely medical, private meeting and no information was issued until the conclusion of the meeting.

### Le Palais des Congrès de Liège a 10 ans...

Le Palais des Congrès de Liège, qui fêtera cette année son 10<sup>e</sup> anniversaire, connut un départ prestigieux : en 1958, sur une période de 7 mois, de fin mai à décembre, 52 congrès, dont 42 à caractère international y tinrent leurs assises, tandis que le nombre total des manifestations organisées au Palais s'élevait à 128.

Depuis lors, l'activité du Palais des Congrès n'a cessé de progresser chaque année, justifiant ainsi les espoirs qu'on avait mis en lui. C'est ainsi que le nombre des manifestations est passé successivement à 226 en 1959, 339 en 1960, 399 en 1961, 419 en 1962, 469 en 1963, 553 en 1964, 593 en 1966, pour atteindre le chiffre de 639 en 1967. Parmi ces 639 manifestations, on compte 71 congrès, dont 26 congrès internationaux et 45 congrès nationaux.

### Les Congrès à Monte-Carlo

La Principauté de Monaco a été, durant les six premiers mois de l'année 1968, le siège d'importantes réunions internationales.

C'est ainsi qu'après les Rencontres Cinéma et Civilisation, le VIII<sup>e</sup> Festival International de Télévision et la XI<sup>e</sup> Rencontre Catholique de Télévision, le Palais des Congrès a vu se dérouler, du 1<sup>er</sup> au 5 avril, les assises d'un Colloque organisé par l'Agence Internationale de l'Energie Atomique sur le thème « Essais de rayonnement sur la prolifération et la différenciation cellulaires ».

Du 18 au 20 avril, c'était au tour des délégués de l'Association Européenne des Directeurs de Bureaux de concerts et de spectacles de se réunir à Monaco. Ce congrès fut suivi des IX<sup>e</sup> Journées Biochimiques Latines qui rassemblèrent en Principauté plus de quatre cents participants. Trois Prix Nobel, MM. Arne Tiselius, Féodor Lynen et Jacques Monod, assistèrent à cette importante réunion qui avait obtenu le Haut Patronage de S.A.S. le Prince.

Au mois de mai, après le Comité Européen des Associations de Fonderie (8-10 mai), le congrès de la Fédération Européenne des Fabricants de Carton Ondulé groupa du 13 au 17 mai, quelque huit cents participants.

Du 28 mai au 5 juin, deux importantes réunions : le 41<sup>e</sup> congrès de la Société Française

d'Orthopédie dentofaciale et le 44<sup>e</sup> congrès de la Société Européenne d'Orthodontie, tous deux patronnés par S.A.S. le Prince, eurent également pour cadre la Principauté de Monaco.

Bien que perturbés par les événements qui se produisirent en France à cette époque, ces congrès rassemblèrent tout de même à Monaco cinq cents participants sur les mille qui avaient été prévus.

La Conférence de la Jeune Chambre Internationale patronnée également par S.A.S. le Prince se déroula du 12 au 15 juin et réunit quatre cents délégués. Le thème de cette réunion était le suivant « Jeunes d'aujourd'hui Europe de demain ». Le Congrès fut rehaussé de la présence de M. Paul Henri Spaak, ancien Premier Ministre de Belgique, qui fit une conférence magistrale sur l'Europe.

Enfin, l'Unesco organisa à Monaco, du 24 au 28 juin, la V<sup>e</sup> Conférence Régionale des Commissions Nationales Européennes pour l'Unesco.

La séance inaugurale de cette réunion eut lieu en présence de S.A.S. le Prince. Après les discours de bienvenue de S.E.M. Paul De-

*~TKë theme of the 53rd World Esperanto Congress, which drew 1,770 Esperanto speakers to Madrid in early August, was that of Human Rights. The first plenary session took as its subject < Cultural rights and linguistic discrimination > and discussion ranged over the situation in Yugoslavia, Ethiopia, Algeria, Spain and a number of other countries with sizeable language problems. Here Professor Ivo Lapenna outlines his own viewpoint on this much-neglected aspect of Human Rights.*

mange, Ministre d'Etat de la Principauté et de S.E. M. Arthur Crovetto, Président de la Commission Nationale Monégasque pour l'Unesco, M. René Mahcu, Directeur Général de l'Unesco prononça une brillante allocution.

L'Assemblée générale du Bureau International Catholique de l'Enfance (du 27 au 29 juin) et l'Assemblée générale de la Fédération Internationale de Lawn-Tennis (du 9 au 11 juillet) clôturèrent le cycle des conférences internationales au Palais des Congrès.

Bien entendu, ces diverses réunions furent toutes agrémentées de réceptions officielles

*Le complexe du Palazzo dei Congressi, de Florence, comprend un bâtiment historique du XV<sup>e</sup> siècle situé dans un parc lui-même historique, au centre de la ville.*

*Ci-dessous : table ronde pour 20 personnes, dans une des salles de commissions du Palazzo dei Congressi, de Florence.*

*déjà d'une salle de 300 places. Des aménagements en cours permettront bientôt l'ouverture d'une salle pouvant recevoir 1.200 congressistes.*

offertes, soit par IX. AA. SS. le Prince et la Princesse de Monaco, soit par S.E. M. le Ministre d'Etat ou par le Maire de Monaco.

#### Aerhotel

Une nouvelle société vient d'être créée en Italie - Aerhotel - par un groupe de firmes de tout premier plan : Alitalia, la Compagnie Aérienne Italienne - CIGA, la Compagnie Italienne des Grands Hotels, la SME et la Compagnie Financière du Sud. Le but d'Aerhotel est la construction et la gestion en Italie et à l'étranger d'hôtels de conception tout à fait moderne en vue du développement tou-

ristique attendu après la mise en service des futurs grands avions. Aerhotel aura son siège à Rome.

#### *Suppression de l'interprétation simultanée*

Pour la première fois, Europadress, à titre expérimental et pour des raisons d'économie, a renoncé à la traduction simultanée lors de son Congrès de Baie, en juin 1968. Les membres ont, paraît-il, discuté sans difficultés des problèmes posés, dans la langue officielle de l'Association — l'anglais — et au moyen de traductions en français et en allemand.

#### *Tape Recording*

Following the sixth Conference of Lutheran Minority Churches in Europe, LWF General Secretary André Appel, conference chairman, gives his comments and observations in a brief taped interview available for broadcast purposes from the LWF Information Bureau, in English, French or German.

#### *Computer program aids Conference planning*

The conference on electronics design held at the University of Cambridge from 23 to 27 September 1968, was planned with the aid of the computer of the Institution of Electrical Engineers.

A large number of engineers of all categories completed questionnaires indicating their preferences from a wide range of design topics. Mr. H.V. Beck, Chairman of the Organizing Committee, wrote a computer program to enable the results to be analysed. These showed two areas of particular interest to be the estimating of development cost, and the control of design projects.

#### *Estimates and resources*

An estimated expenditure of \$ 6,751 for holding the Fifth Special Assembly of the

Inter-American Commission of Women, based on 12 days at the Headquarters of the Organization of American States, was approved by the OAS Council in April 1968.

Of this total, \$ 1,751 was available in the current Pan American Union budget under the item « Annual Assembly of the Inter-American Commission of Women » and the remaining \$ 5,000 was charged against unexpended balances existing under other Pan American Union budget appropriations as of June 1968.

The estimates were the following :

<i>1. Personnel</i>	
1 Typist for two months	660.00
Interpreters (3 at \$ 50 X 12 days)	1,800.00
Transcribers (3 at \$ 25 X 12 days)	900.00
Messengers (2 at \$ 15 X 12 days)	360.00
1 Mimeograph operator (1 at \$ 15 X 14 days)	210.00
Overtime	700.00
<i>2. Contract translations</i>	
400.00	
<i>3. Supplies and materials for documents of the Assembly</i>	
900.00	
<i>4. Celebration of the Fortieth Anniversary of the IACW</i>	
500.00	
<i>5. Contingencies</i>	
321.00	
	\$ 6,751.00

#### *Réunion du comité*

Un des documents soumis à la 45<sup>e</sup> session du Conseil Economique et Social des Nations Unies (E/4515/Add. 1, 10 juillet 1968), donne le projet de budget détaillé de la 4<sup>e</sup> session du Comité de la planification au développement, envisagé pour avril ou mai 1969.

Si cette réunion devait se tenir à Bangkok au siège des Nations Unies à New York, les

frais supplémentaires sont évalués à 44.760 dollars.

Les prévisions budgétaires pour la session à Bangkok sont, en résumé, les suivantes :

- Frais de déplacement et de subsistance des 18 membres du Comité (pendant 14 jours) : \$31.320.
- Frais de déplacement et de subsistance du personnel du Siège (six personnes) : \$ 10.860.

— Dépenses afférentes au personnel assurant le service de la Conférence (4 interprètes (russe et espagnol); 6 réviseurs; 4 sténo-dactylographes) : \$27.650.

— Frais généraux : \$ 1.430.

— Total : \$ 71.260.

Il est intéressant de noter que les évaluations tiennent compte du fait, entr'autres, que :

*Le Palais des Expositions de Charleroi (f-n Belgique) accueille un certain nombre de congrès internationaux. H leur offre entr'autres un hall contenant 6.000 places assises, et une salle de Conférence de 400 places, que montrent les deux photos ci-dessus.*

- a) Il y aurait deux séances par jour et l'interprétation en langues anglaise, espagnole, française et russe serait nécessaire.
- b) Il n'y aurait ni comptes rendus analytiques ni minutes ; seul le rapport final rendrait compte des débats.
- c) La documentation publiée en cours de session ne dépasserait pas six pages par jour, en langues anglaise, française, russe et espagnole.

#### De la publicité touristique

En raison des liens étroits qui relient au tourisme bon nombre de congrès, dans un de leurs aspects publicitaires du moins, nous conseillons à ceux qui aimeraient rendre leurs invitations et programmes de congrès plus attractifs, de lire l'étude pleine de finesse sur la publicité touristique rédigée par M. Lefebvre, publiée en langues française et anglaise, dans le numéro de mars 1968 de la revue « Le Répertoire des voyages », de Paris.

#### *Hong Kong plans big new Convention Centre*

Pacific Travel News, the official publication of the Pacific Area Travel Association, pays regular attention to the development of conventions in this area. We thought it would be of interest to quote some remarks written in this magazine about Hong Kong.

It has been pointed out that Asia is one of the fast-growing areas for conventions. With the probable lowering of transpacific air fares, it is likely to grow even faster in this respect. Pointing the way is the prediction that by 1970 there will be some 300 conventions or meetings scheduled in Asia yearly. Accordingly, the Hong Kong Government has under consideration a report which suggests the building of a large exhibition - convention center which could handle conventions of up

to 15,000 persons. The suggested complex would include an indoor stadium for staging spectator sports, shows and entertainment, and have facilities for handling large-scale meetings, trade fairs, exhibitions.

Hong Kong's present convention facilities consist of the City Hall (geared for international meetings with multi-lingual translation equipment) which can accommodate about 2,500 persons, and the convention rooms of the Hong Kong Hilton, the Mandarin, the President and the Miramar hotels, adding up to the Colony's ability to handle about 5,000 convention delegates. (Largest convention held in Hong Kong was the 1965 ASTA conference which drew a total attendance of just over 2,000 delegates.)

Until a large-scale convention center is built, Hong Kong will continue to concentrate on attracting re-convened meetings, or pre and post-visitors, from conventions held elsewhere in Asia or the Pacific, and sales incentive visitors (such as the 1966 Gibson Refrigerator dealers conference which brought 3,800 persons in 28 parties over a period of a month). If the suggested exhibition-convention center becomes a reality, Hong Kong can cater to the really large and lucrative international convention groups such as Rotary, Lions, etc.

Since Hong Kong hotels are fully booked and meeting places in full use by local organizations during the April-May and October-November peak tourist season, the best time for conventions from abroad is around August and September and the first three months of the year, according to the Hong Kong Tourist Association.

#### Long-range planning *Letter to The Times (May 21, 1968) :*

Sir, — The programme just issued for the 8th European Marketing Congress to be held

in Brussels in July is a very lavish production. From the British point of view it is a pity that, while other distinguished contributors to the proceedings are named, the speaker from the United Kingdom was not known and is « to be announced later on » — particu-

larly as his subject is « Long-range planning ». I hope he catches the 'plane.

Yours faithfully,  
Roger Coombs.  
Spindles, Goudhurts, Kent.

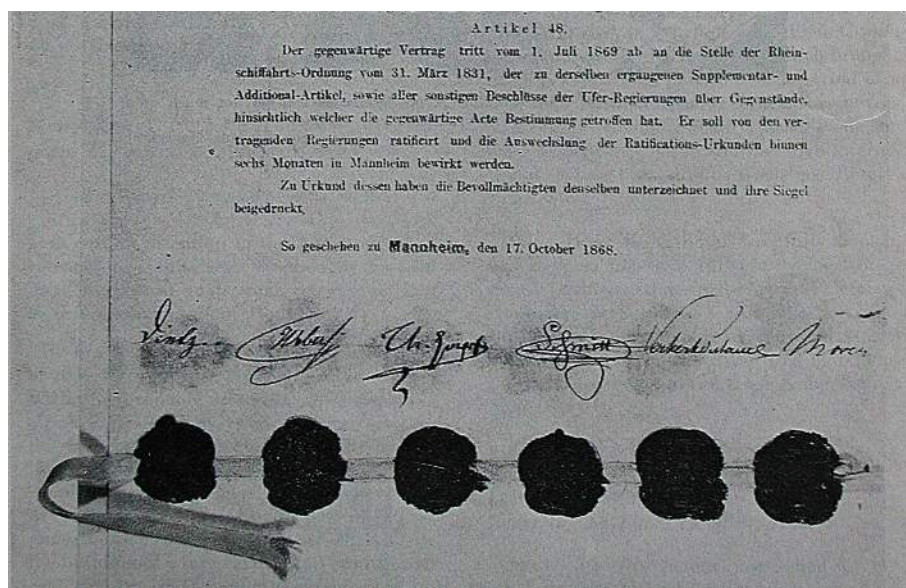

*I wouldn't mind so much when a fellow at the lectern says, « I'm not much of a speech-maker », if he didn't then spend forty minutes proving it.*  
(From the Kiwanis Magazine)

## La Commission Centrale pour la Navigation du Rhin *fête le centième anniversaire de la Convention de Mannheim*

Le Congrès de Vienne, dans les art. CVIII à CXVII de l'acte final du 9 juin 1815, avait consacré le principe de la liberté de navigation sur les fleuves qui séparent ou traversent plusieurs Etats et, pour le Rhin, il avait institué la Commission Centrale en lui donnant notamment le mandat d'élaborer une convention pour la navigation sur ce fleuve, en suivant les principes énoncés à cet effet dans l'annexe 16 B audit Acte final.

La Commission Centrale se réunit le 5 août 1816, mais ce n'est que le 31 mars 1831 que fut signée la Convention pour la navigation du Rhin, dite de Mayence.

L'évolution des idées, le développement de la navigation à vapeur, ainsi que l'abolition progressive des droits de navigation nécessitèrent assez rapidement une révision des dispositions conventionnelles qui ne correspondaient plus aux circonstances. Le 18 octobre 1868 fut signée la Convention révisée pour la navigation du Rhin, dite de Mannheim, qui est encore en vigueur aujourd'hui.

# Yearbook of international Organizations

11th (1966-1967) edition

Seventh Supplement

October 1958

The 11th edition of the encyclopaedic dictionary of international organizations, their officers, their abbreviations, appeared in December 1966.

This seventh supplement includes changes of address and full entries for those organizations which have supplied basic documentation (eg copies of Constitution, lists of national branches or members) since the sixth supplement. The first six supplements were published in the February, June and October 1957 issues and in the January, April and July 1968 issues.

#### \* AFRICAN AND MALAGASY COUNCIL ON HIGHER EDUCATION

(Conseil africain et malgache de l'enseignement supérieur — CAMES)  
c/o Ministère de l'éducation nationale, Ouagadougou, Upper Volta.

Established 10 Feb 1968, Libreville, by Ministers of National Education of French-speaking African States. Aims Ensure co-ordination between member-States in the fields of higher education and of research. #### CARIBBEAN FOOD AND NUTRITION INSTITUTE - CFNI

(\* Institut des Caraïbes pour l'alimentation et la nutrition)

c/o University of the West Indies, Mona, Kingston, 7, Jamaica. T. 76661.

Established Jan 1967, Kingston, under the auspices of FAO, the Pan-American Health Org and WHO, with facilities provided by the Governments of Jamaica and Trinidad and Tobago and the University of the West Indies. Aims Work with and augment existing national, international and voluntary efforts in the area toward betterment of the food and nutrition situation, such efforts being embodied in four main functions : co-ordination, advisory services, training and field investigations; disseminate ideas and information. Members The 15 English-speaking countries of the Caribbean.

Structure Two centres, in Jamaica and Trinidad. International Staff 12, at present provided by FAO and PAHO/WHO. Language English.

Finance Funds are provided in part from grants from the Williams Waterman Program to PAHO/WHO and FAO; in part they come directly from WHO and FAO. IGO Relations Collaboration with PAHO/WHO and FAO.

Activities Co-ordination of nutrition developments in the region through informal arrangements with local institutes and through technical meetings with representatives of the Ministries of Agriculture, Community Development, Education, Health and Finance and Planning of the countries served. Bi-annual inter-disciplinary training programmes in community nutrition will start in 1969. Also proposed for 1939: joint nutrition survey with Government of Barbados personnel, and joint field study with the Schistosomiasis Research and Control Unit of the Government of St. Lucia.

**/ Bibliographie  
/ courante**  
des documents, comptes  
rendus et actes des  
réunions internationales

**/ Bibliographical  
/ current list**

of papers, reports  
and proceedings of  
international meetings

Volume 8, No 10

October 1968

The following list provides the essential bibliographical details concerning newly-published reports arising out of international congresses. Entries are arranged in chronological order according to date of congress. The customary bibliographical practice has been adopted of giving name and locality of the publishing house in the case of commercially produced volumes. In other cases the material can be obtained direct from the International organizations responsible for arranging the congress. Full Information about such organizations. Including of course their present address, can be obtained from the current (1966-67) edition of the Yearbook of International Organizations (UA1, 1 rue aux Laines, Brussels 1; 1008 p. 27x21 cm, \$20).

The chronological listing is followed by a keyword index, references being according to congress dates.

Entries for which precise dates are not available have been placed at the end of the relevant month or year, and they have been given a running number, prefixed by the letters " ND " (no date) from 1 upwards; the entry appears in the form " 1968 (ND 1) " as does the index entry at the appropriate keyword.

In cases where a particular congress has given rise to more than one publication the indication " (a) " appears after the date at the head of the first entry; subsequent entries for the same congress bear the indication " (b) ". " (c) " etc.

It has been agreed with the United Nations Secretariat in New York that United Nations publications should be excluded from our listings, thus avoiding overlap with the monthly and cumulated issues of the United Nations documents index (UNDI).

Subscription prices to the Bibliographical Current List  
for 1969: US\$12.00 (500 FB or £4.0.0)  
for 1969 + 1970: US\$20.00 (800 BF or £6.15.0)  
(20 % discount for subscribers to International Associations.)

From 1969 onwards the Bibliographical Current List will only be supplied separately and will not be incorporated in International Associations.

The UAI wishes to express its gratitude to the many international organizations who send in, on publication, the reports of their international meetings, as well as the Library of Congress and the Columbus Memorial Library in Washington, the Deutsche Staatsbibliothek Berlin, the Bibliothèque Royale of Belgium, the University Library of Helsinki (Finland), the National Library of Canada, the Biblioteca Nacional do Lisboa (Portugal), the Library of the International Atomic Energy Agency in Vienna, and the Scientific Information Institute of the Academy of Sciences USSR for their valuable co-operation.

The Union of International Associations wishes to thank the National Science Foundation of the United States for the financial assistance it gave with respect to the preparation and publication of this bibliography during the first three years.

## BIBLIOGRAPHIES

### Bibliographie sélective sur l'organisation internationale (1885-1964)

par G. P. Speeckaert

Classés dans diverses catégories, 350 titres d'ouvrages consacrés à l'organisation internationale en général et 730 titres d'ouvrages consacrés à des organisations internationales déterminées (214 organisations). La sélection couvre les années de publication de 1885 à fin 1964. Index des auteurs et des organisations.

- 21 x 14,5 cm, 160 p. - Prix: 150 FB, 15 FF, 13 FS.

Répertoire des périodiques publiés par les organisations internationales

1<sup>TM</sup> édition, in-12°, 110 p., épuisé.

2<sup>o</sup> édition, in-12°, 242 p., épuisé.

3<sup>o</sup> édition en préparation.

Bibliographie (annuelle) des comptes rendus des réunions internationales tenues :

Vol. 1 : en 1957, 388 p.

Vol. 2: en 1958, 398 p.

Vol. 3: en 1959, 320 p.

Publiée avec l'aide de la National Science Foundation, Washington

Chaque volume, 21 x 16 cm, Prix: 400 FB, 40 FF, 34 FS.

Annuaire des comptes rendus de congrès internationaux

Bibliographie cumulative des comptes rendus des réunions internationales tenues de 1960 à 1967, à paraître fin 1968, environ 750 pages.

Bibliographie courante des documents, comptes rendus et actes des réunions internationales

Publiée mensuellement dans «Associations Internationales», en 1968.

Pour les collections des numéros de cette bibliographie mensuelle publiés de 1961 à 1967, des informations seront envoyées sur demande.

Bibliographie des publications sur l'organisation internationale et les organisations internationales

Ouvrages généraux sur l'organisation internationale. Etudes et travaux par ou sur les organisations intergouvernementales, par ou sur les organisations internationales non gouvernementales.

Paraît 4 fois par an dans «Associations Internationales».

**INTERNATIONAL TRADE CENTRE UNCTAD/GATT**

(Centre du commerce international CNUCED/GATT — Centra Comercio Internacional)

Palais des Nations, CH-1211 Geneva 10 Switzerland.

Established May 1964, Geneva, by the General Agreement on Tariffs and Trade (GATT). Jointly operated by the United Nations Conference on Trade and Development (UNCTAD) and GATT since Jan 1968 as a result of decisions taken by the UN General Assembly and the Contracting Parties of GATT to integrate the resources and activities of both bodies in the field of export promotion. Aims Assist developing countries in the promotion of their exports by the provision of information on export markets and marketing and of technical services designed to help

them develop their own export promotion services and train the personnel required to run them.

Members States which are members of UNCTAD and GATT.

Structure The Centre is headed by a Director jointly nominated by the Director-General of GATT and the Secretary-General of UNCTAD and a Deputy Director. Staff 100, including professional staff seconded by developed countries at their own expense and administrative staff provided by the secretariats of the two parent bodies. Languages English, French, Spanish.

Director H L Jacobson (USA); Deputy Director V E Santiapillai (Ceylon).

Finance The Centre is financed through the regular budgets of GATT and UNCTAD. These funds are supplemented by contributions in services or cash from many developed countries (financial grants, secondment of professional staff and Trade Promotion Advisers, assignment of lecturers for the training programme, etc).

Activities The Centre is associated with the UN Export Promotion Programme, maintains close relations with governmental and non-governmental organizations concerned with export promotion and trade and co-operates with other UN agencies, particularly ILO, FAO, UNIDO and the UN Regional Economic Commissions. The Centre has a world-wide system of liaison agencies in developed and-developing countries, usually in the foreign trade sections of Ministries. Activities are channelled through four main services : Market Information Service; Publications Programme; Trade Promotion Advisory Service; Training Programme (courses, trade study tours). Publications " International Trade Forum " and Supplement (quarterly); series of handbooks on trade promotion techniques and sources of trade information (all published in separate English, French or Spanish editions or in trilingual ones). 01870 UN 20 Jun 68

**UNITED NATIONS INDUSTRIAL DEVELOPMENT ORGANIZATION - UNIDO**

(Organisation des Nations Unies pour le développement industriel - ONUDI; Organización de las Naciones Unidas para el desarrollo industrial)

Felderhaus, Rathausplatz 2, P O Box 707, 1010 Vienna. T. 43.50.

Liaison Office United Nations, New York.

Established 1 Jan 1987 following the adoption by the General Assembly of Resolution 2089 (XX) of 20 Dec 1965 and Resolution 2152 (XXI) of 17 Nov 1956. Aims Promote industrial development by encouraging the mobilization of national and international resources to assist in, promote and accelerate the industrialization

of the developing countries, with particular emphasis on the manufacturing sector. The Organization advises and assists governments of developing countries in formulating industrial development programmes, in building and strengthening industrial support institutions and in preparing specific industrial projects. Members Open to all members of the UN, of the specialized agencies and of IAEA. Structure Industrial Development Board, elected by the General Assembly, meets normally once a year and is composed of 45 member states. Executive Director is appointed by the SG of the United Nations and confirmed by the General Assembly.

Exec Director Ibrahim Helmi Abdel-Rahman. Finance Expenses for administrative and research activities are borne by the regular budget of the UN, which includes a separate budgetary provision for such expenses. Expenses for operational activities are met : from the voluntary contributions made to the Organization, in cash or in kind, by Governments of the States Members of the UN, members of the specialized agencies and of the IAEA; through participation' in the UN Development Programme on the same basis as other participating organizations; by the utilization of the appropriate resources of the UN regular programme of technical assistance. IGO Relations Representatives of specialized agencies and other IGOs may participate, without right to vote, in the deliberations of the Board and its subsidiary organs. NGO Relations Representatives of NGOs desi-

gnated by the Board may sit as observers at public meetings of the Board, its committees and subsidiary organs.

Activities Expenditures for field activities during 1967 totalled \$5.4 million. This included projects for which UNIDO acted as executing or participating agency under the Technical Assistance and Special Fund components of the UN Development Programme, the Regular Programme of Technical Assistance of the United Nations, and the Special Industrial Services (SIS). During 1967 302 experts were at work in Africa, Asia, Europe and Latin America. Supporting activities included studies and research on a variety of industrial sectors, as well as in such fields as planning and programming, investment financing, export promotion, industrial technology and management techniques. National committees for UNIDO have been established in India, Lesotho, the Netherlands Nicaragua, Rwanda, Sudan and Tunisia. A total of 19 expert group meetings, seminars and workshops were convened during 1967. In-plant group training programmes were organized in five countries, and 539 fellowships were awarded to engineers and technicians from developing countries. International symposium Athens 1967. Publications " Bulletin on Industrialization and Productivity ", " Industrial Research and Development News ", " Industrial Legislative Series ", " UNIDO Newsletter ", Series of studies and monographs.

## The annual international

# Congress Calendar

Tenth supplement

October 1968 Octobre

Dixième supplément

In 1965 the UAI introduced the system of indexing by date in connection with its "Bibliography of Proceedings of International Meetings held in 1959". The system was adopted from January 1966 onwards in the monthly "Bibliographical Current List of Papers, Reports and Proceedings of International Meetings".

Its practical advantages, particularly as regards speed of production, have led us to use it for the "International Congress Calendar" also. As the entries in the Calendar are in strict chronological order, any particular item can be found immediately from the date given after the appropriate keyword in the index starting on page 746.

This supplement gives details of new congresses announced after the annual Calendar (which appeared as the December 1967 issue of International Associations) closed for press. The insertion of "•" after the date indicates that previously published arrangements have been modified.

En 1965 l'UAI introduisait pour la première fois le système d'indexation par date : il s'agissait de la Bibliographie des Comptes Rendus des Réunions Internationales tenues en 1959. Le système fut étendu, à partir de janvier 1966, à la "Bibliographie Courante des Documents, Comptes Rendus et Actes des Réunions Internationales".

Les avantages pratiques de ce système, notamment en ce qui concerne la rapidité de production, nous ont amené à l'introduire également dans l'"International Congress Calendar". L'index des mots clés qui complète non seulement le Calendrier annuel, mais désormais également chaque supplément mensuel (voir page 746), réfère donc à des dates, et non plus à des numéros d'ordre comme précédemment.

Ce supplément comporte les nouvelles informations reçues depuis la mise sous presse de l'édition complète. Le signe « • » après la date indique qu'il s'agit d'une information déjà mentionnée mais dont certaines données ont été modifiées.

University of Pennsylvania, Philadelphia, Pa.

1973

1973 Feb 14-16 Philadelphia (Pa, USA)  
Institute of electrical and electronics engineers. Int  
solid state circuits conference. 20th annual meeting.  
University of Pennsylvania, Philadelphia, Pa.

1974

1974 Feb 13-15 Philadelphia (Pa, USA)  
Institute of electrical and electronics engineers. Int  
solid state circuits conference. 21st annual meeting.  
University of Pennsylvania, Philadelphia, Pa.

1975

1975 Feb 12-14 Philadelphia (Pa, USA)  
Institute of electrical and electronics engineers. Int  
solid state circuits conference. 22nd annual meeting.  
University of Pennsylvania, Philadelphia, Pa.

## Index

- Accident medicine 69 Jun 2; 69 Jun  
3\*1.
- Adult education 68 Dec 11-18.

## PLEASE NOTE

The complete 1969 edition of the Annual Calendar of International Meetings announced for the years 1969 to 1982 will be published in our December, 1968 issue. As in the past, it will be supplemented by subject and geographical indexes. This issue will also contain a classified index of the contents of the Review for the 12 numbers appearing in 1968.

## ATTENTION

Le Calendrier complet annuel (édition 1969) des réunions internationales annoncées pour les années 1969 à 1982 sera publié dans notre numéro de décembre 1968. Il sera complété comme d'habitude par des index matières et géographie.

On trouvera dans ce même numéro la table des matières analytique de la Revue pour les 12 numéros de l'année 1968.
