## International Meetings 1969-1982 Réunions Internationales

The number of meetings for which either the date or the place is not yet fixed is considerable. This data is normally only of limited interest to the majority of readers. The calendar therefore only lists meetings for which the place and the month are already known. The other meetings are published in circulars with a restricted circulation.

Le nombre de réunions pour lesquelles soit la date, soit le lieu n'ont pu être encore précisés est considérable et n'intéresse que certains lecteurs. Dès lors, le présent calendrier se limite aux réunions dont le lieu et la date du mois nous ont déjà été notifiés. Les autres annonces font l'objet de documents à circulation limitée.

## Bibliographical current list

of papers, reports  
and proceedings of  
international meetings

Volume 8, No 12

December 1968

The following list provides the essential bibliographical details concerning newly-published reports arising out of international congresses. Entries are arranged in chronological order according to date of congress. The customary bibliographical practice has been adopted of giving name and locality of the publishing house in the case of commercially produced volumes. In other cases the material can be obtained direct from the international organizations responsible for arranging the congress. Full information about such organizations, including of course their present address, can be obtained from the current (1966-67) edition of the Yearbook of International Organizations (UAI, 1 rue aux Laines, Brussels 1; 1008 p. 27x21 cm, \$ 20).

**The chronological listing is followed by a keyword index, references being according to congress dates.**

The editors regret that as from this issue this bibliography will be discontinued due to the high cost of production in its present form. Material will be cumulated for inclusion in the bibliographical YEARBOOK OF INTERNATIONAL CONGRESS PROCEEDINGS. The 1st edition of this publication will be available in May 1969. It covers reports from meeting years 1960 through 1967. (An earlier series of annual volumes covered the meeting years 1957, 1958 and 1959 in separate volumes.)

Details of reports received by the editors will continue to be mentioned in the magazine but systematic coverage will only be maintained through the new Yearbook series.

# Yearbook of International Organizations

**1968-1969**

**12th edition**

## DESCRIPTION

The Yearbook of International Organizations provides information on all international organizations of :

**every category** including :

300 official organizations (established by agreement between governments)  
2,700 non-governmental organizations (councils, federations, groups, commissions, standing conferences, associations, organizations, alliances, etc)

The 3,000 organizations listed in 1,200 pages cover :

**every field of activity** including :

science, commerce, social welfare, education, technology, bibliography, press, international relations, politics, economics, finance, trade unions, professional associations, transport, sport, humanities, health, etc.

Definitions are as broad as possible, so that :

**international** includes :

all geographical and political regional groupings of African, Asian, American, Caribbean, Pacific, Scandinavian, European (and other) organizations.

## SECTIONS USED

The 28,000 entries are arranged in 6 sections :

- I — **Classified list of organizations** (with a perpetual numbering system to facilitate comparison of organizations between editions). This gives details of the members of organizations. There are 26 main groups of organizations.
- II — **Geographical index of organizations** listing addresses of organizations by continent, country and town.
- III — **French keyword and title index** to assist French language readers and to facilitate location of international organizations with French language titles.
- IV — **Dictionary of international organizations** which is the main part of the Yearbook. It contains the descriptive entries on each organization, cross-references (keywords, initials, officers), and abbreviations.

**NEW SECTIONS** introduced for the first time are -

- V — **Preliminary list of multinational business corporations**. This is the first published list of a controversial new category of international organizations (600 business enterprises are included). There has been much discussion about these organizations since the last edition of the Yearbook.
- VI — **List of institutes, schools and study centres of international relations**  
105 bodies concerned with the study of international relations are listed.  
No other such list is currently available.
