

## UIA ASSOCIATIONS MAILINGS - 2019

The Union of International Associations (UIA) maintains a database on international civil society: international non-governmental organizations (NGOs) and inter-governmental organizations (IGOs).

The UIA's databases *Yearbook of International Organizations* and *International Congress Calendar* are continuously updated and currently include descriptive profiles of over 71,000 international associations – including contact details, history, aims, and membership – and details on over 485,000 international meetings of these bodies, from 1850 to the present, and also far into the future.

Annually UIA contacts tens of thousands of international associations directly in order to update its database, both digitally and by post. In 2019 UIA will be updating the database for the 57<sup>th</sup> edition of its *Yearbook of International Organizations*, which will be published in 2020. These mailings are a chance for your organization or company to reach out directly to these associations! With a response rate of over 35%, you can be certain that you are being seen!
