

Figure 4.1.2. Subjects
Number of international organizations by subject groups: 2004

This table indicates the total number of entries (organizations) allocated to each detailed subject category. Totals are given for each level of the matrix (see Figure 4.1.1.). For each subject category is listed the number of organizations allocated to that category, based on keywords in the organization descriptions in Volume 1. A distinction is made between intergovernmental (IGO) and non-governmental (NGO) organizations, and the total is given. Note that, while in previous editions organizations of certain types were excluded from this table, and the exclusion varied from edition to edition, in this edition organizations of all types are included.
