

Figure 0.3.1. Current overview

Links between international organizations by type: 2000

This table indicates the total number of instances that international organizations (whether intergovernmental or nongovernmental), classified as belonging to a given cluster of types in the Yearbook, cite other organizations (whether intergovernmental or nongovernmental) of that or of other clusters of type. The types allocated to each cluster are as follows:

- Cluster I (International organizations): Types A B C D F
- Cluster II (Dependent organizations): Types E K R
- Cluster III (Organizational substitutes): Types S T
- Cluster IV (National organizations): Types G N
- Cluster V (Dead, inactive and unconfirmed bodies): Types H J U

For information on organization types, see Appendix 10. For further detail on citations, see Figures in Section 3.

For example:

- Organizations included in Cluster I (that is, organizations classified as types A, B, C, D or F) cite other organizations included in Cluster I 45,965 times, and organizations included in Cluster II (that is, classified as types E or G) 20,377 times.
- There are 10,910 bodies included in Cluster I, and together they cite other organizations, of whatever group, 82,214 times. This is an average of 7.5 citations per organization included in Cluster I.
- There are 87,355 citations to organizations included in Cluster I from organizations included in any other Cluster, and 39,226 citations to organizations included in Cluster II from organizations included in any other Cluster. This is an average of 8 citations to each organization included in Cluster I, and an average of 6.6 citations to each organization included in Cluster II.

Note that the total number of citations given in this table may differ from the totals given in other tables due to intervening editorial work.
