

**Figure 0.3.3. Current overview**  
**Links from international nongovernmental organizations (NGOs) by type: 2001**

This table indicates the total number of instances that international nongovernmental organizations (NGOs), grouped by cluster, cite other international organizations, whether intergovernmental (IGO) or non-governmental (NGO), of the same or another cluster. The organization types allocated to each cluster are as follows:

- Cluster I (International organizations): Types A B C D F
- Cluster II (Dependent organizations): Types E K R
- Cluster III (Organizational substitutes): Types S T
- Cluster IV (National organizations): Types G N
- Cluster V (Dead, inactive and unconfirmed bodies): Types H J U

For example:

- There are 9,974 NGOs included in Cluster I. They cite other organizations included in Cluster I, whether IGO or NGO, 33,115 times, and organizations included in Cluster II, whether IGO or NGO, 14,263 times.
- These 9,974 bodies cite other organizations, of whatever cluster, a total of 58,878 times, for an average of 5.9 citations per organization.
- Cluster I organizations, whether IGO or NGO, register a total of 61,373 citations from NGOs. This is an average of 5.6 citations to each organization in Cluster I.

For information on organization types, see Appendix 10 "Types of organization". For further detail on citations between types, see Figures 3.1.1 and 3.2.

Note that the total number of citations given in this table may differ from the totals given in other tables due to intervening editorial work.

The corresponding table for 2000 is reprinted from last year's *Yearbook* (Edition 38, 2001-2002), correcting various errors of calculation.
