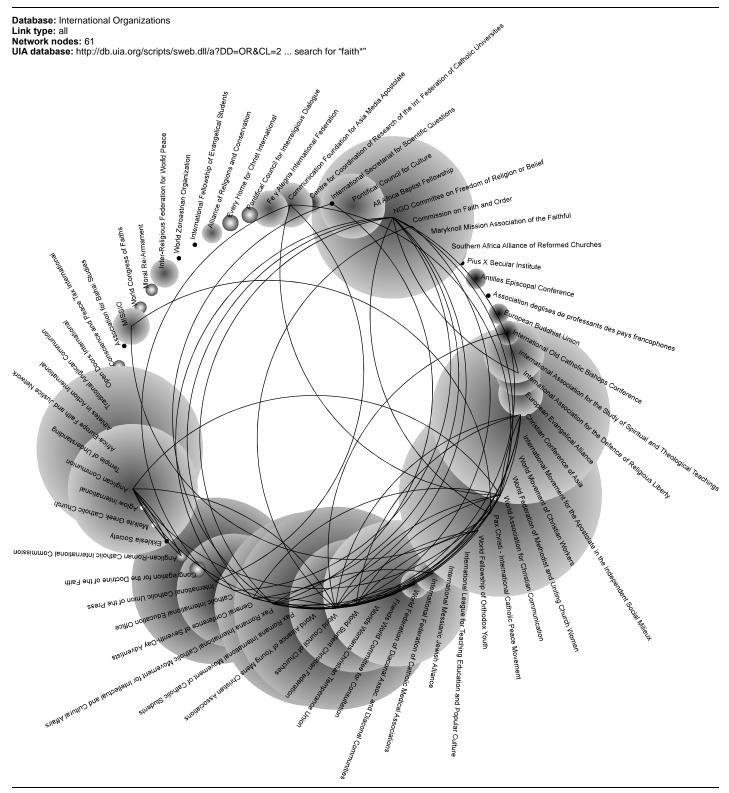

Figure 10.1.7.
Relations amongst international organizations focusing on faith (A-G)

This image endeavours to present 61 international bodies having an explicit concern with "faith" as indexed in the Yearbook of International Organizations. The selection was limited to active bodies of types A to G, and as such notably excludes religious orders. The bodies are positioned around the circumference of a circle. On the circumference each body is represented by a smaller circle with a diameter proportional to the number of links it has to other bodies (in addition to those selected for this image). The bodies are linked in the image if they indicate some form of relationship with each other.
