Figure 4.1.4. (a) Subjects

Areas of concern of leading people in international organizations, by subjects: 1999

This table is reprinted from *Who's Who in International Organizations*, 3rd edition, published in 2000. Most of the data reflected in this table was collected in 1999: in some cases the data reflects that collected for earlier editions of *Who's Who*.

This table lists detailed subject categories derived from the index by area of concern as printed in *Who's Who in International Organizations*, 3rd edition. The subject categories are listed here by general subject category; in the index they are listed alphabetically. For each category the total is given of the number of biographees whose involvement in international organizations indicates a concern with that field. All 14,233 biographees listed in the 3rd edition are included in this table.

The classification system used here is the same as that used for Volume 3 of this Yearbook, and given in this volume in Figure 4.1.1. Note that the subject headings used here date from the 1999 edition and do not include changes made subsequently. A detailed discussion of this classification system can be found in the appendix "Functional Classification".
