

## Figure 7.2.2. (b) Organizations: language use

### Languages spoken by leading people in international organizations: 1995 and 1999

These tables, reprinted from the previous edition, indicate the language pairs spoken by leading people in international organizations (using data collected in 1995 and 1999 for the *Who's Who in International Organizations* (UIA, 1996 and 2000 respectively). People may speak more than two languages. Someone who speaks three languages, for example, would have three language pairs.

The same top ten languages appear in 1996 and 2000: Arabic, Dutch, English, French, German, Italian, Portuguese, Russian, Spanish, and Swedish (alphabetical order). They are listed in the entries of more than 100 biographees sampled in 1995 and 70 biographees in 1999. The tables below give totals for paired combinations of these 10 languages. For example, 1673 biographees in 1996 include English and French in the list of languages they speak, 57 include Italian and Portuguese, and 18 include Spanish and Swedish.

The frequency of language pairs, and the change from 1995 to 2000, are also given as percentages of the total samples.

#### Top ten language pairs and their frequency 1995

##### Number of Persons 1995

	Arabic									
Dutch	0	Dutch								
English	98	338	English							
French	61	318	1673	French						
German	15	270	993	809	German					
Italian	10	72	391	385	217	Italian				
Portuguese	4	22	139	124	56	57 Portuguese				
Russian	7	9	124	90	82	26	4	Russian		
Spanish	14	85	620	527	252	204	119	35	Spanish	
Swedish	2	5	122	60	84	9	2	7	18	

##### Percentage 1995

	Arabic									
Dutch	0.0%	Dutch								
English	3.8%	13.1%	English							
French	2.4%	12.3%	64.9%	French						
German	0.6%	10.5%	38.5%	31.4%	German					
Italian	0.4%	2.8%	15.2%	14.9%	8.4%	Italian				
Portuguese	0.2%	0.9%	5.4%	4.8%	2.2%	2.2% Portuguese				
Russian	0.3%	0.3%	4.8%	3.5%	3.2%	1.0%	0.2%	Russian		
Spanish	0.5%	3.3%	24.1%	20.5%	9.8%	7.9%	4.6%	1.4%	Spanish
