

### Figure 0.3.1. Current overview

#### Links between international organizations by type: 2002

This table indicates the total number of instances that international organizations, whether intergovernmental (IGO) or nongovernmental (NGO) and grouped by cluster, cite other organizations (whether IGO or NGO) of the same or another cluster. The organization types allocated to each cluster are as follows:

- Cluster I (International organizations): Types A B C D F
- Cluster II (Dependent organizations): Types E K R
- Cluster III (Organizational substitutes): Types S T
- Cluster IV (National organizations): Types G N
- Cluster V (Dead, inactive and unconfirmed bodies): Types H J U

For example:

- Organizations included in Cluster I (that is, organizations classified as types A, B, C, D or F) cite other organizations in Cluster I a total of 46,517 times, and organizations in Cluster II (that is, classified as types E or G) 20,946 times.
- There are 11,373 bodies included in Cluster I, and together they cite other organizations, of whatever cluster, 84,443 times. This is an average of 7.4 citations per organization in Cluster I.
- There are 91,366 citations to organizations in Cluster I from organizations in any other Cluster, and 42,110 citations to organizations in Cluster II from organizations in any other Cluster. This is an average of 8 citations to each organization in Cluster I, and an average of 7 citations to each organization in Cluster II.

For more information on organization types, see Appendix "Types of organization". For further detail on citations between types, see Figures 3.1.1 and 3.2.1.

Note that the total number of citations given in this table may differ from the citation totals given in other tables due to intervening editorial work.
