**Change in number of secretariats of international NGOs of types A-F: 1992 and 2002**

This table gives the population and number of international organization secretariats - NGOs of types A to F - for a given country for the years 1992 and 2002. These are the principal secretariats (headquarters, main office) of the organisation. Secondary (including regional) secretariats are not included. The table also indicates the expansion or contraction in the number of NGO secretariats by country over the decade, and the number of secretariats per 1 million of population for both years.
