

## Figure 6.2.4. Organizations: structure and leadership

### Leading people in international organizations – gender: 2002

This figure, reproduced from *Who's Who in International Organizations*, 4<sup>th</sup> edition, gives a simple breakdown for male and female biographees, together with the total number of organizations (from Volume 1 of the *Yearbook of International Organizations*) listed in the entries of these biographees. Because gender is not always known to the editors, the number given in the column "Both" is greater than the sum of the columns "Men" and "Women".

The numbers present only the information for the 13,448 biographees whose entries have a note on gender. Note that this information is usually given only when:

- the biographee has included it in his or her reply;
- the biographee has used a gender-related title such as "Mr" or "Mme";
- other information was available to the editors, such as a photograph.

However, in order to enhance the picture presented by these statistical tables, in some cases certain assumptions were made on the basis of name.

Male		Female		Unknown		Both	
People	Org's	People	Org's	People	Org's	People	Org's
9947	13308	3501	4082	6066	6484	19514	23874
