

Figure 2.1.13. Geographic distribution
Geographic distribution of international meetings: 2003

A distinction is made between meetings of "international organizations" and other international meetings organized by national or other bodies. Meetings taken into consideration include (a) those organized and/or sponsored by international organizations, and (b) some national meetings with international participation (provided they have a minimum of 300 participants, at least 40% foreign, at least 5 nationalities, and of at least 3 days' duration). Excluded are meetings taking the form of religious gatherings, courses, party conferences, fairs, sales meetings, as well as closed administrative and expert meetings. In any given country, only the principal meeting cities are indicated (with 3 or more meetings total); also excluded are countries with 4 or fewer meetings.
