

## Figure 6.2.1. Organizations: structure and leadership

### Leading people in international organizations – year of birth: 2002

This figure, reproduced from *Who' Who in International Organizations*, 4<sup>th</sup> edition, gives the total number of biographees born in a given year. Only the 2,426 biographees whose year of birth is known to the editors, and whose death has not been reported to the editors, are included here. In other words, it is assumed that this figure includes only living persons. Breakdowns are given for male and female biographees; however, because gender is not always known to the editors, the number given in the column "Both" may be greater than the sum of the columns "Men" and "Women".

This figure also gives the total number of organizations (from Volume 1 of the *Yearbook of International Organizations*) listed in the entries of these biographees.

A graphic representation of the totals is included in the following figure.

It should be noted that the totals in this table are derived from information provided by the biographees themselves; according to general policy, the editors took people at their word and made no effort to check the accuracy of the claims.
