
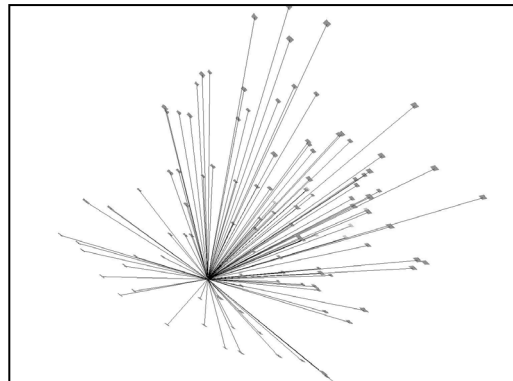

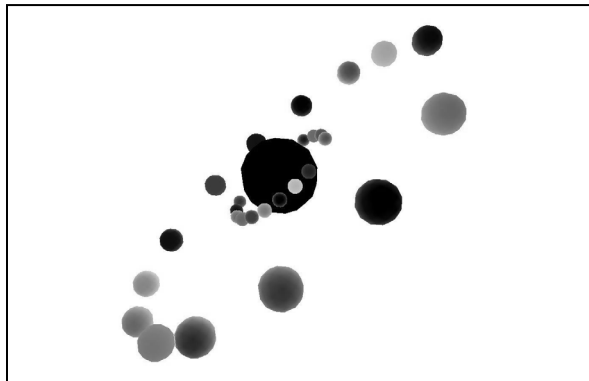

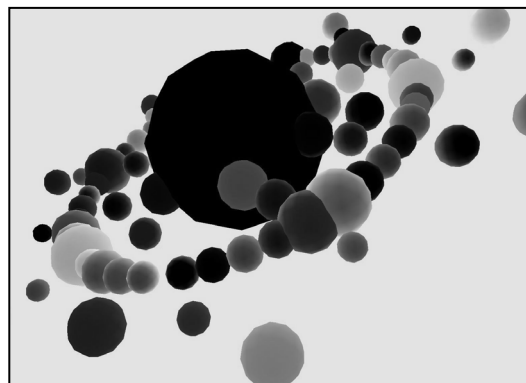

Figure 10.9. Historical review
Visualization: current work (2005)

For over 25 years the UIA has been working on the visualization of networks. Below are static shots of some of the more recent results, adapted from the images available on <http://www.uia.be/visuals/javagallery.htm>.

The United Nations system: three presentations

The World Bank system

A presentation of the United Nations system:
static shots taken from different angles
