

Figure 6.1.1. Organization: structure and leadership

International organizations of special structure: 2007

This table indicates the number of international organizations (both intergovernmental or non-governmental) allocated to each category representing a special organizational structure. This information is based on Volume 3 of this Yearbook series.

For each category, the first line of totals indicates the number of intergovernmental organizations; the second line of totals indicates the number of non-governmental organizations; the third line indicates the number of organizations in total.

The organizations are totalled by type, indicated by the letter code at the head of each column. In addition, totals are given at the end of each row by cluster. The organization types allocated to each cluster are as follows:

Cluster I (International organizations): Types A B C D F

Cluster II (Dependent organizations): Types E K R

Cluster III (Organizational substitutes): Types S T

Cluster IV (National organizations): Types G N

Cluster V (Dead, inactive and unconfirmed bodies): Types H J U

It should, however, be noted that, as the classification of many of these categories depends to a large extent on manual editorial intervention, care should be taken in comparing the figures from one year to another.

See the Appendix "Types of organization" for more information.
