

Figure 8.4.
Languages spoken by international organization officers
Edition 46, 2009/2010 (data collected in 2008)

This table is based on the entries of the 1,930 biographees that contain information on language proficiency. In these entries 154 languages are mentioned; these 154 languages are listed here. Of these 154 languages, 64 are listed by only 1 biographee while 53 are listed by more than 4 biographees; these 53 are listed in Figure 8.5.

Breakdowns are given for male and female biographees; however, because gender is not always known to the editors, the figures given in the columns "Total" may be greater than the sum of the columns "Male" and "Female".

The tables also give the total number of organizations (from Volume 1 of this Yearbook) listed in the entries of these biographees.

It should be noted that the figures in these tables are derived from information provided by the biographees themselves; according to general policy, the editors took people at their word and made no effort to check the accuracy of the claims.

See also 7.1. for a complete list of languages, and 7.2. for details on languages used by international organizations.
