

**Figure 9.1.3. Current year
Top international meeting cities in 2009**

This table is extracted from Figure 9.1.1.

Please see the Introduction or the introductory notes to Figure 9.1.1. for an explanation of the column headings "A" and "A+B" and "A+C".

In this table, only the 59 to 62 cities with the most meetings, whether of type A or type A+B together or type A+C together, are included. Details on other cities can be found in Figure 9.1.1. The total meetings of all cities, as listed in Figure 9.1.1., is used to calculate the percentages.

Three lists are given:

- Cities are listed in descending order of the total number of meetings of type A.
- Cities are listed in descending order of the total number of meetings of type A+B.
- Cities are listed in descending order of the total number of meetings of type A+C.

Caveat: It should be remembered that the number of meetings for the current reporting year (2009) is expected to be around 80 percent of that extracted from the database five years hence, by which time data stability is expected to be more or less reached for 2009.

City	A: total meetings	A: as % of world	City	A+B: total meetings	A+B: as % of world	City	A+C: total meetings	A+C: as % of world
1 Singapore, Singapore	618	6.0	1 Singapore, Singapore	689	6.0	1 Singapore, Singapore	746	6.2
