

## Section 9: Table 1.1. Current year Geographic distribution of international meetings in 2010

Please see the Introduction for information regarding the criteria for inclusion in this report, and the policy regarding geographical names.

Countries are listed alphabetically. Cities are listed alphabetically within country.

The data in this report are drawn from the *International Congress Calendar*, the meetings database of the UIA. In this table:

**Meetings counted under the heading “A” are “Meetings of international organizations”:**

- meetings organized or sponsored by “international organizations”, i.e. non-governmental organizations (NGOs) and intergovernmental organizations (IGOs) that are included in the UIA’s *Yearbook of International Organizations* (see the Introduction “What is an ‘international organization’”) and whose details are subject to systematic collection and updates on an annual basis by the UIA
- and
- with at least 50 participants, or number of participants unknown.

**Meetings counted under the heading “B” are “Other international meetings (3 days)”:**

- meetings not organized or sponsored by “international organizations” but nonetheless of significant international character, notably those organized by national organizations and national branches of international organizations
- and
- at least 40 percent of the participants are from countries other than the host country and at least 5 nationalities are represented
- and
- lasting at least 3 days, or of unknown duration
- and
- with either a concurrent exhibition or at least **300** participants

**Meetings counted under the heading “C” are “Other international meetings (2 days)”:**

- meetings not organized or sponsored by “international organizations” but nonetheless of significant international character, notably those organized by national organizations and national branches of international organizations
- and
- at least 40 percent of the participants are from countries other than the host country and at least 5 nationalities are represented
- and
- lasting at least 2 days, or of unknown duration
- and
- with either a concurrent exhibition or at least **250** participants

**Caveat:** It should be remembered that the number of meetings for the current reporting year (2010) is expected to be around 80 percent of that extracted from the database five years hence, by which time data stability is expected to be more or less reached for 2010.
