Section 9: Table 2.3. Five year review
Top 10 international meeting countries and cities in 2006-2010

This table lists the 10 countries and the 10 cities with the greatest number of meetings of type A for each of the years from 2006 to 2010.

Meetings counted under the heading "A" are "Meetings of international organizations":
- meetings organized or sponsored by "international organizations", i.e. non-governmental organizations (NGOs) and intergovernmental organizations (IGOs) that are included in the UIA's *Yearbook of International Organizations* (see the Introduction "What is an 'international organization'") and whose details are subject to systematic collection and updates on an annual basis by the UIA

and
- with at least 50 participants, or number of participants unknown.

Caveat: When comparing consecutive years in flux, it should be remembered that both years' totals can be expected to change over time, the latest slightly more rapidly than the older. The number of meetings for the current reporting year (2010) is expected to be around 80 percent of that extracted from the database five years, by which time data stability is expected to be more or less reached for 2010.

Country	2006	Country	2007	Country	2008	Country	2009	Country	2010
