

Section 9: Table 3.6. Ten year review

Number of participants in international meetings by month in 1996-2005

This table lists the number of meetings of type A by month and by number of participants for each of the years from 1996 to 2005.

Meetings for which the number of participants is unknown, or for which the month is unknown, are **not** included here.

Meetings counted under the heading “A” are “Meetings of international organizations”:

- meetings organized or sponsored by “international organizations”, i.e. non-governmental organizations (NGOs) and intergovernmental organizations (IGOs) that are included in the UIA’s *Yearbook of International Organizations* (see the Introduction “What is an ‘international organization’”) and whose details are subject to systematic collection and updates on an annual basis by the UIA
- and
- with at least 50 participants, or number of participants unknown.

Caveat: When comparing consecutive years in flux, it should be remembered that both years’ totals can be expected to change over time, the latest slightly more rapidly than the older. For the years presented here, the data can be assumed to be now reasonably stable.
