

Figure 8.9.
Areas of interest of international organization officers
Edition 49: taken from Edition 48, 2011/2012 (data collected in 2010)

This figure lists 2,043 detailed subject categories derived from the index by area of concern: 803 are categories by subject only; 1,240 are combinations of regions and subject categories. For each category the total is given of the number of biographees whose involvement in international organizations (i.e. those listed in the paragraph "Organizations (Yearbook)") indicates a concern with that field. Totals are also given for each level of the matrix (see preceding page), and the position of each matrix cell is indicated in parentheses.

The subject categories are listed here by general subject category; in the index they are listed alphabetically. Only those subject categories with biographees listed are included in this figure.

All 16,855 biographees are included in the index and are therefore also included in this figure. Breakdowns are given for male and female biographees; however, because gender is not always known to the editors, the figure given in the column "Total" may be greater than the sum of the columns "Men" and "Women".

This figure also gives the total number of organizations (from Volume 1 of this Yearbook) listed in the entries of these biographees.

The classification system used here is the same as that used for Volume 3 of this Yearbook. A detailed discussion of this classification system can be found in the essay "Functional Classification" at www.uia.org. Other presentations of this data, and comparisons to earlier data, can be found in section 5 of this Volume.
