

Section 9: Table 1.3. Current year Top international meeting cities in 2011

This table is extracted from Table 1.1.

Please see the Introduction or the introductory notes to Table 1.1. for an explanation of the column headings "A" and "A+B" and "A+C".

In this table, only the cities with at least 30 meetings, whether of type A or type A+B together or type A+C together, are included. Details of other cities can be found in Table 1.1. The total meetings of all cities, as listed in Table 1.1., is used to calculate the percentages.

Three lists are given:

- Cities are listed in descending order of the total number of meetings of type A, with at least 30 such meetings
- Cities are listed in descending order of the total number of meetings of type A+B, with at least 30 such meetings
- Cities are listed in descending order of the total number of meetings of type A+C, with at least 30 such meetings

Caveat: It should be remembered that the number of meetings for the current reporting year (2011) is expected to be around 80 percent of that extracted from the database three to five years hence, by which time data stability is expected to be more or less reached for 2011.

City	A: total as % of meetings	A: world	City	A+B: total as % of meetings	A+B: world	City	A+C: total as % of meetings	A+C: world
1 Singapore, Singapore	772	8.5	1 Singapore, Singapore	919	8.9	1 Singapore, Singapore	1011	9.4
