

Section 9: Table 1.4. Current year

Top international meeting countries in 2011 by continental grouping

This table is extracted from Table 1.1.

Please see the Introduction or the introductory notes to Table 1.1. for an explanation of the column headings "A" and "A+B" and "A+C".

In this table, the 8 to 10 countries, per continental grouping, with the most meetings, whether of type A or type A+B together or type A+C together, are included. Details of other countries can be found in Table 1.1. The total meetings of all countries, as listed in Table 1.1., is used to calculate the percentages.

Three lists are given:

- Countries are listed by continental grouping, in descending order of the total number of meetings of type A
- Countries are listed by continental grouping, in descending order of the total number of meetings of type A+B
- Countries are listed by continental grouping, in descending order of the total number of meetings of type A+C

Caveat: It should be remembered that the number of meetings for the current reporting year (2011) is expected to be around 80 percent of that extracted from the database three to five years hence, by which time data stability is expected to be more or less reached for 2011.

Country	A: total meetings	A: as % of world	Country	A+B: total meetings	A+B: as % of world	Country	A+C: total meetings	A+C: as % of world
AFRICA			AFRICA			AFRICA
