Section 9: Table 2.3. Five year review
Top 10 international meeting countries and cities in 2007-2011

This table lists the 10 countries and the 10 cities with the greatest number of meetings of type A for each of the years from 2007 to 2011.

Meetings counted under the heading "A" are "Meetings of international organizations" and meet all the following criteria:
- meetings organized or sponsored by "international organizations", i.e. international non-governmental organizations (INGOs) and intergovernmental organizations (IGOs) that are included in the UIA's *Yearbook of International Organizations* (see the Introduction "What is an 'international organization'") and whose details are subject to systematic collection and updates on an annual basis by the UIA
- with at least 50 participants, or number of participants unknown.

Caveat: When comparing consecutive years in flux, it should be remembered that both years' totals can be expected to change over time, the latest slightly more rapidly than the older. The number of meetings for the current reporting year (2011) is expected to be around 80 percent of that extracted from the database three to five years hence, by which time data stability is expected to be more or less reached for 2011.

Country	2007	Country	2008	Country	2009	Country	2010	Country	2011
