

Figure 5.3.
Number of international organizations by subject of activity
Edition 50, 2013/2014(data collected in 2012)

This table indicates the total number of organizations allocated to each level, each cell, and each sub-cell of the subject matrix in Figure 5.1.

For each level of the matrix there is first a heading with the name and number of the level, e.g. "LEVEL 0. COSMOSPHERE / GEOSPHERE". Below this are details for each matrix cell in that level, after which are given totals for the level.

For each matrix cell there is first a heading with the name of the matrix cell, followed by its number in parentheses, e.g. "Fundamental Sciences (00)". Below this are given the names of each sub-cell of that cell, with the number of organizations allocated to that sub-cell. Finally, totals are given for the cell.

The allocation of an organization to a subject category is based on keywords in the organization name and description as given in Volume 1.

The organizations are totalled by type, indicated by the letter code at the head of each column. See 1.3. "Types of organization" for more information on organization types. For each cell or sub-cell, the first line indicates the number of intergovernmental organizations (IGOs) allocated; the second line indicates the number of international non-governmental organizations (NGOs) allocated; the third line indicates the total number of organizations, both intergovernmental and non-governmental, allocated.

In addition, totals are given at the end of each row by cluster. The organization types allocated to each cluster are as follows:

- Cluster I (International organizations): Types A B C D F
- Cluster II (Dependent organizations): Types E K R
- Cluster III (Organizational substitutes): Types S T
- Cluster IV (National organizations): Types G N
- Cluster V (Dead, inactive and unconfirmed bodies): Types H J U
