**Links between international organizations by paragraph**  
*Edition 55, 2018/2019 (data collected in 2017)*

This table indicates the total number of instances that international organizations of a given type in the Yearbook and in a given paragraph of the descriptive entry cite other organizations in the Yearbook.

See 1.3. "Types of organization" for more information on organization types.

The column headings used in this table are abbreviations of the paragraph headings used in the organizations' description entries. The full paragraph headings are as follows:

FOU = Founded                      FIN = Finance                      CON = Consultative Status  
 AIM = Aims                          ACT = Activities                      IGO = IGO Relations  
 STR = Structure                      PUB = Publications                      NGO = NGO Relations  
 STA = Staff                          MEM = Members

For further information see 10.2 "Contents of organization descriptions".

For example: FROM Type B organizations (row "B"): the IGOs of Type B have a total of 129 citations FROM the "Founded" paragraph (column "FOU"); the NGOs of Type B have 466 citations from the "Structure" paragraph (column "STR"). There are a total of 37 intergovernmental organizations of Type B (column "No of bodies"), with an average of 134.1 citations FROM all paragraphs of each organization (column "Average x-refs").

Note that editorial discretion is used when an organization cites links with large numbers of other bodies, especially when such contact is temporary or tenuous: e.g. foundations funding large numbers of NGOs; IGOs collaborating in specific projects of NGOs not otherwise recognized.

Note that the total number of citations given in this table may differ from the totals given in other tables due to intervening editorial work.
