## Top cities for international association meetings in 2003-2017: Type A

This table lists the cities with a total of at least 100 meetings of type A during the period 2003 to 2017, giving the number of meetings of type A in each city per year from 2003 to 2017 as currently documented in the database. Cities are listed in alphabetical order.

- with at least 50 participants, or number of participants unknown

**Caveat: It should be remembered that the number of meetings in the database for the current reporting year will, on average, increase by about 11% over the next year, and by about 34% over the following five years.**
