26 New Zealand	38	8.00	26 Tromsø, Norway	10	132.21
27 Lithuania	22	7.65	27 Bruges, Belgium	15	128.52
28 Cyprus	9	7.57	28 Nadi, Fiji	5	118.25
29 France	455	6.97	29 Amsterdam, Netherlands	96	116.82
30 Canada	251	6.79	30 Pyeongchang, Korea Rep	5	114.51

* The meetings data in this report are drawn from the UIA database, the source of the *International Congress Calendar* and the *Yearbook of International Organizations*.

The population data in this table is drawn from the United Nations: <http://data.un.org>

A country or city is included in this table only if it hosted at least 5 international association meetings in 2018.

Caveat: The number of meetings in the database for the year just past will, on average, increase by about 11% over the next year, by about 34% over the following five years, and by about 37% over the following seven years.

Definitions of meetings of Type “A”, of Type “B”, and of Type “C” can be found in “Research methodology”.

Countries and cities: see “Research Methodology” regarding geographical names.

This graph shows the 10 countries with the highest meetings per capita ratio in 2018. (ratio per 1 million)

This graph shows the 10 cities with the highest meetings per capita ratio in 2018. (ratio per 1 million)
