

Figure 5.8.
Number of international organizations by subject and region of activity
Edition 58, 2021/2022 (data collected in 2020)

This table provides an indication of the pattern of relationships between regions and subjects.

Rows indicate subject categories according to the matrix (see Figure 5.1). The subject categories are divided into 10 major groups corresponding to the levels of the matrix; both the name and the two digit code of each row are given. Within each major group, details on the matrix cells are given.

For each subject category (that is, for each matrix cell), the first line indicates the number of intergovernmental organizations (IGO) active in that domain; the second line indicates the number of international non-governmental organizations (NGO); the third line is the total number of organizations active in that domain. In addition, totals are given for each matrix row.

The columns indicate the number of organizations with an interest in or with activities in the specified regions or regional groupings of countries. The allocation of an organization to a subject category or to a regional category is determined by keywords in the organization name and description as given in Volume 1.

In the last column, 'IGOs', are found the number of intergovernmental organizations with activities related to the subject area.

The totals given for each level of the matrix do not take into account the fact that an organization may be listed under more than one (sub-)region. For example, it is possible that an organization is totalled under both the 'America' column and the 'Central America' column.

Note that the region in which an organization has an interest or an activity does not necessarily reflect where that organization is located. See section 3 for information on the locations of secretariats and members of international organizations.
