
9.1.4 Geographical names

It is not the intention of the editors to take a position with regard to the political or diplomatic implications of geographical names or continental groupings used. The country, city, and continental names used in this publication are chosen for the sake of brevity and common usage in English. Within the limits of standardization required for statistical purposes, the geographical names used by the organizer of the meeting are respected. This may sometimes lead to territories and dependencies being listed separately, which then affects the totals per country.

The editors are aware there may be inconsistencies in spelling or usage of city names and would welcome being given the information necessary to correct these. Some apparent inconsistencies, however, may be due to the preferences of the organizer (for example, indicating a meeting is held in a suburb or distinct district of a major city rather than in the city itself), or to the exigencies of postal agreements.
