Figure 7.1.
Languages used by international organizations
Edition 61, 2024/2025 (data collected in 2023)

This table gives the number of international organizations whose descriptions in Volume 1 of this Yearbook series specify the use, whether officially or informally, of a given language, languages, language family or other language grouping. Only those languages and language groupings mentioned in the description of at least one organization are included here. If no language is specified in the organization's description, then that organization is not included in this table. At the beginning of the table is given the total number of organizations included in this table.

For each language, the first line indicates the number of intergovernmental organizations specifying the use of that language or language grouping; the second line indicates the number of non-governmental organizations; the third line indicates the total number of organizations.

Language groupings or families are also included in this table in the same alphabetical order as the individual languages. The scope of each language is indicated after the language name by one of the following codes: (I) = Individual; (M) = Macrolanguage; (F) = Family; (O) = Other.

The organizations are totalled by type, indicated by the letter code at the head of each column. In addition, totals are given at the end of each row by cluster. The organization types allocated to each cluster are as follows:

Cluster I (International organizations): Types A B C D F
Cluster II (Dependent organizations): Types E K R
Cluster III (Organizational substitutes): Types S T
Cluster IV (National organizations): Types G N
Cluster V (Dead, inactive and unconfirmed bodies): Types H J U

See the introduction to Figure 1.3. “Types of organization” for more information.
