Figure 5.5.
Number of intergovernmental organizations by subject of activity
Edition 62, 2025/2026 (data collected in 2024)

The data for this figure are extracted from Figure 5.3.

The Y axis indicates the number of international organizations (both intergovernmental and non-governmental).

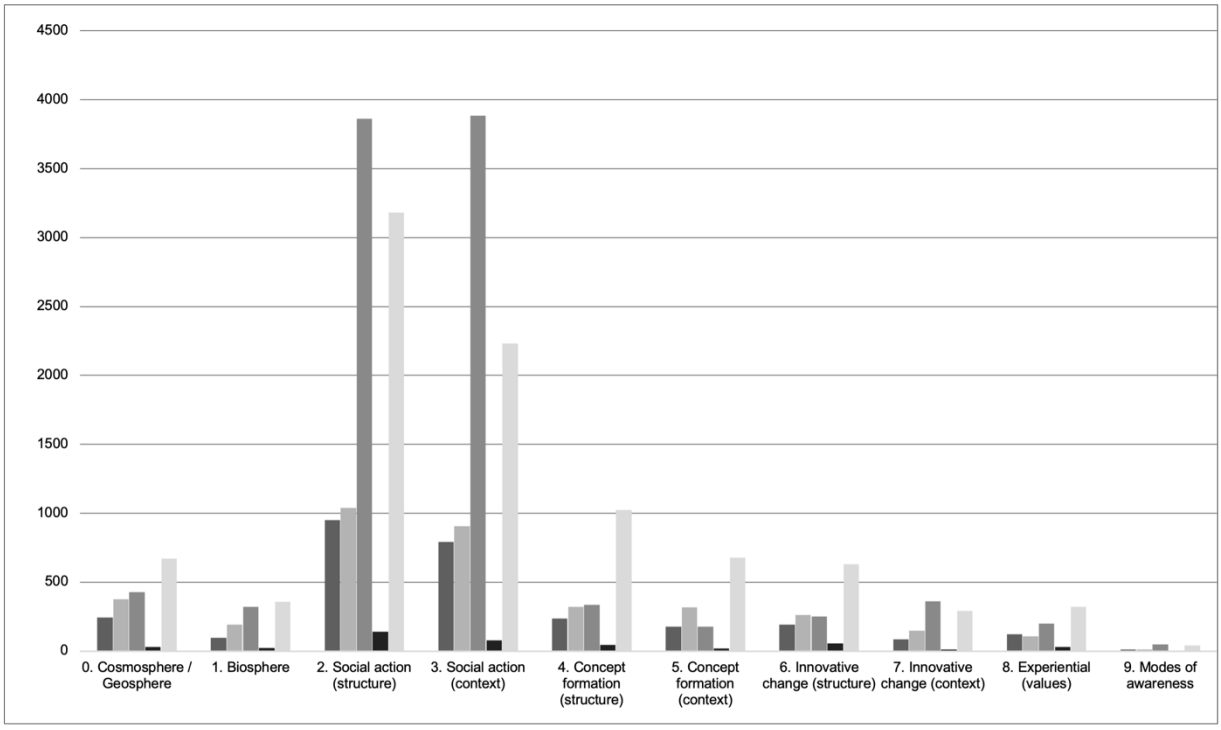

The X axis indicates the levels of the subject matrix (see 5.1.).

Each bar represents the number of intergovernmental organizations of a particular cluster with an interest in that matrix level.

The organization types allocated to each cluster are as follows:

Cluster I (International organizations): Types A B C D F – printed here on the far left of each group
Cluster II (Dependent organizations): Types E K R – printed here second to the left of each group
Cluster III (Organizational substitutes): Types S T – printed here in the middle of each group
Cluster IV (National organizations): Types G N – printed here second to the right of each group
Cluster V (Dead, inactive and unconfirmed bodies): Types H J U – printed here on the far right of each group

See 1.3. "Types of organization" for more information.
